southern countries the ECB helped out by providing credit from the local money printing presses The ECB became heavily exposed to investment risks in the process and subsequently had to be bailed out by intergovernmental rescue operations that provided replacement credit for the ECB credit which itself had replaced the dwindling private credit The interventions stretched the legal structures stipulated by the Maastricht Treaty which in the absence of a European federal state had granted the ECB a very limited mandate These interventions created a path dependency that effectively made parliaments vicarious agents of the ECB's Governing Council This book describes what the author considers to be a dangerous political process that undermines both the market economy and democracy without solving southern Europe's competitiveness problem It argues that the Eurozone has to rethink its rules of conduct by limiting the role of the ECB exiting the regime of soft budget constraints and writing off public and bank debt to help the crisis countries breathe again At the same time the Eurosystem should become more flexible by offering its members the option of exiting and re entering the euro something between the dollar and the Bretton Woods system until it eventually turns into a federation with a strong political power centre and a uniform currency like the dollar Kuru Trap Soma Vira, 1996-09 The American spaceship captain s mysterious daughter Neelam whom he had illegally stowed away with him on his journey to Mars joins two alien teenagers in their battle to free themselves from the thought control of a mysterious power on their planet The group controlling that Power have found means to make themselves immortal They are not worried about the rebellion They ve made it impossible for anyone to leave the planet Anyone who tries gets burned And they control the planet's getting ready togo nova sun To them total destruction of the tainted blood is the only thing that counts Alaska Native Land Claims United States.
