**Decolonizing “Multicultural” Counseling through Social Justice** Rachael D. Goodman, Paul C. Gorski, 2014-11-03

Multicultural counseling and psychology evolved as a response to the Eurocentrism prevalent in the Western healing professions and has been used to challenge the Eurocentric patriarchal and heteronormative constructs commonly embedded in counseling and psychology. Ironically, some of the practices and paradigms commonly associated with multiculturalism reinforce the very hegemonic practices and paradigms that multicultural counseling and psychology approaches were created to correct. In *Decolonizing Multicultural Counseling through Social Justice*, counseling and psychology scholars and practitioners examine this paradox through a social justice lens by questioning and challenging the infrastructure of dominance in society as well as by challenging ourselves as practitioners, scholars, and activists to rethink our commitments. The authors analyze the ways well-meaning clinicians might marginalize clients and contribute to structural inequities despite multicultural or cross-cultural training and offer new frameworks and skills to replace the essentializing and stereotyping practices that are widespread in the field. By addressing the power imbalances embedded in key areas of multicultural theory and practice, contributors present innovative methods for revising research paradigms, professional education, and hands-on practice to reflect a commitment to equity and social justice. Together, the chapters in this book model transformative practice in the clinic, the schools, the community, and the discipline. Among the topics covered: Rethinking racial identity development models; Queering multicultural competence in counseling; Developing a liberatory approach to trauma counseling; Decolonizing psychological practice in the context of poverty; Utilizing indigenous paradigms in counseling research; Addressing racism through intersectionality. A mind-opening text for multicultural counseling and psychology courses as well as other foundational courses in counseling and psychology education. *Decolonizing Multicultural Counseling through Social Justice* challenges us to let go of simplistic approaches, however well-intended, and to embrace a more transformative approach to counseling and psychology practice and scholarship.

**Handbook of Clinical Rating Scales and Assessment in Psychiatry and Mental Health** Lee Baer, Mark A. Blais, 2009-10-03

Psychiatric clinicians should use rating scales and questionnaires often for they not only facilitate targeted diagnoses and treatment, they also facilitate links to empirical literature and systematize the entire process of management. Clinically oriented and highly practical, the *Handbook of Clinical Rating Scales and Assessment in Psychiatry and Mental Health* is an ideal tool for the busy psychiatrist, clinical psychologist, family physician, or social worker. In this ground-breaking text, leading researchers provide reviews of the most commonly used outcome and screening measures for the major psychiatric diagnoses and treatment scenarios. The full range of psychiatric disorders are covered in brief but thorough chapters, each of which provides a concise review of measurement issues related to the relevant condition along with recommendations on which dimensions to measure and when. The Handbook also includes ready-to-photocopy versions of the most popular, valid, and reliable scales and

checklists along with scoring keys and links to websites containing on line versions Moreover the Handbook describes well known structured diagnostic interviews and the specialized training requirements for each It also includes details of popular psychological tests such as neuropsychological personality and projective tests along with practical guidelines on when to request psychological testing how to discuss the case with the assessment consultant and how to integrate information from the final testing report into treatment Focused and immensely useful the Handbook of Clinical Rating Scales and Assessment in Psychiatry and Mental Health is an invaluable resource for all clinicians who care for patients with psychiatric disorders

Handbook of Vocational Rehabilitation and Disability Evaluation Reuben Escorpizo,Sören Brage,Debra Homa,Gerold Stucki,2014-12-01 This book presents the state of the art in the application and implementation of the WHO s International Classification of Functioning Disability and Health ICF in the areas of vocational rehabilitation as a primary topic and disability evaluation as a secondary topic Application of the ICF and implementation strategies toward a holistic and comprehensive approach to work disability and vocational rehabilitation programs are presented along with clinical cases and exercises The ICF as a topic in health and disability has been gaining momentum since its approval by the World Health Assembly in 2001 and great progress has been made since then However the integration if the ICF in the realm of vocational rehabilitation has been lacking despite the fact that work and employment are a major area in people s lives particularly those who have work disability This book will advance the professional practice of vocational rehabilitation rehabilitation counseling occupational medicine and allied health science
