Friesland Irish Cultures of Travel Raphaël Ingelbien, 2016-05-13 This book analyses travel texts aimed at the emergent Irish middle classes in the long nineteenth century Unlike travel writing about Ireland Irish travel writing about foreign spaces has been under researched Drawing on a wide range of neglected material and focusing on selected European destinations this study draws out the distinctive features of an Irish corpus that often subverts dominant trends in Anglo Saxon travel writing As it charts Irish participation in a new mass tourism it shows how that participation led to heated ideological debates in Victorian and Edwardian Irish print culture Those debates culminate in James Joyce s *The Dead* which is here re read through new discursive contextualizations This book sheds new light on middle class culture in pre independence Ireland and on Ireland s relation to Europe The methodology used to define its Irish corpus also makes innovative contributions to the study of travel writing
