Mathematics Methods for the Elementary and Middle School Gary G. Bitter, Mary M. Hatfield, Nancy Tanner Edwards, 1989 Grade level 1 2 3 4 5 6 7 8 k p e i s t *Building Shared Responsibility for Student Learning* Anne Conzemius, Jan O'Neill, 2001 Who is responsible for student learning Walk into an effective school and ask this question of anyone a teacher a student the principal a parent volunteer a secretary and you ll get the same answer I am Shared responsibility is something school communities build from within It s what happens when all school people accept that what they do makes a difference in how all students learn when they have the knowledge they need to make informed decisions about the best way to promote learning and when they have the skills and opportunities to translate their ideas into effective action Anne Conzemius and Jan O'Neill present a practical framework for building shared responsibility within schools and school systems They identify three critical components Focus The common vision mission values and expectations that provide clarity and lead to new levels of performance Reflection The commitment to test assumptions learn from data and adjust practices accordingly Collaboration The process of developing relationships where all work toward the same objectives and rely on each other to achieve their goals Building shared responsibility for student learning is an ongoing activity a journey and not a destination This research based resource provides a map in the form of effective structures systems processes and policies It explains how to set powerful goals and shares inspiring stories of educators who have embarked on this journey toward higher professional competency increased staff satisfaction rising test scores and improved student results **Designing Instruction** Judith K. March, Karen H. Peters, 2008 A fresh new approach that strengthens the need for teaching with creative thinking strategies for administrative leadership teams Few textbooks have such detailed examples combined with the background study of best practices The authors have great credibility experience resources and abundant research to support their proposal A very well written text offering ample review of the research Sara E Spruce Professor of Education Olivet Nazarene University Use this research based instructional model to meet students achievement goals As the achievement gap between advantaged and disadvantaged students gets wider teachers and administrators need a proven process to help all students meet the requirements of NCLB This practitioner friendly guidebook provides a step by step approach to a complete standards based curriculum and the integration of best practices into the delivery and assessment of instruction in every classroom The authors present three capacity building features of the design process 1 training for building leadership teams to help teachers plan and lead the reform process 2 stewardship training to assist district administrators and principals in supporting and sustaining the implemented reforms and 3 a collaborative observation process to help teachers work together and in partnership with principals to monitor and improve classroom instruction Offering an education model that has been field tested with more than 50 school districts in the U S and Canada this book shows school leaders how to maximize collaborative observation and other team leadership processes to integrate reforms

into a school's existing culture Educators will learn ways to Integrate instructional design with successful instructional reform Strengthen the learning culture through standards Develop effective performance indicators Apply curriculum mapping to instructional design Designing Instruction supports teachers and administrators working together to raise student achievement by using proven instructional design and best practices

Visible Learning for Mathematics, Grades K-12 John Hattie, Douglas Fisher, Nancy Frey, Linda M. Gojak, Sara Delano Moore, William Mellman, 2016-09-15
 Selected as the Michigan Council of Teachers of Mathematics winter book club book Rich tasks collaborative work number talks problem based learning direct instruction with so many possible approaches how do we know which ones work the best In Visible Learning for Mathematics six acclaimed educators assert it's not about which one it's about when and show you how to design high impact instruction so all students demonstrate more than a year's worth of mathematics learning for a year spent in school That's a high bar but with the amazing K-12 framework here you choose the right approach at the right time depending upon where learners are within three phases of learning surface deep and transfer This results in visible learning because the effect is tangible The framework is forged out of current research in mathematics combined with John Hattie's synthesis of more than 15 years of education research involving 300 million students Chapter by chapter and equipped with video clips planning tools rubrics and templates you get the inside track on which instructional strategies to use at each phase of the learning cycle Surface learning phase When through carefully constructed experiences students explore new concepts and make connections to procedural skills and vocabulary that give shape to developing conceptual understandings Deep learning phase When through the solving of rich high cognitive tasks and rigorous discussion students make connections among conceptual ideas form mathematical generalizations and apply and practice procedural skills with fluency Transfer phase When students can independently think through more complex mathematics and can plan investigate and elaborate as they apply what they know to new mathematical situations To equip students for higher level mathematics learning we have to be clear about where students are where they need to go and what it looks like when they get there Visible Learning for Math brings about powerful precision teaching for K-12 through intentionally designed guided collaborative and independent learning
