Brookes, Andres M. Perez, 2021-08-09 Hitler's Shadow Empire Pierpaolo Barbieri, 2015-04-14 A revealing look at Nazi involvement in the Spanish Civil War their economic ambitions how it came to be and how they operated Pitting fascists and communists in a showdown for supremacy the Spanish Civil War has long been seen as a grim dress rehearsal for World War II Francisco Franco's Nationalists prevailed with German and Italian military assistance a clear instance it seemed of like minded regimes joining forces in the fight against global Bolshevism In Hitler's Shadow Empire Pierpaolo Barbieri revises this standard account of Axis intervention in the Spanish Civil War arguing that economic ambitions not ideology drove Hitler's Iberian intervention The Nazis hoped to establish an economic empire in Europe and in Spain they tested the tactics intended for future subject territories The Nazis provided Franco's Nationalists with planes armaments and tanks but behind this largesse was a Faustian bargain Through weapons and material support Germany gradually absorbed Spain into an informal empire extending control over key Spanish resources in order to fuel its own burgeoning war industries This plan was only possible and profitable because of Hitler's economic czar Hjalmar Schacht a wizard of international finance His policies fostered the interwar German recovery and consolidated Hitler's dictatorship Though Schacht's economic strategy was eventually abandoned in favor of a very different conception of racial empire Barbieri argues it was in many ways a more effective strategic option for the Third Reich Deepening our understanding of the Spanish Civil War by placing it in the context of Nazi imperial ambitions Hitler's Shadow Empire illuminates a fratricidal tragedy that still reverberates in Spanish life as well as the world war it heralded Praise for Hitler's Shadow Empire A fascinating beautifully written account of a plan for the German economic domination of Europe that was pushed in the 1930s by the Nazis but above all by non Nazi and more traditionally oriented German economic bureaucrats Barbieri makes us think again about the relationship between economics and racial policies in the making of Nazi aggression Harold James author of Making the European Monetary Union Hitler's Shadow Empire recasts our understanding of the German and Italian interventions in the Spanish Civil War In this brilliant debut Barbieri shows that informal imperialism played a more important part than fascist ideology in the way that Berlin looked at the conflict Barbieri also has a keen ear for the continuing echoes of the Civil War for Spain and indeed for Europe today Niall Ferguson author of The Ascent of Money **Monetary Economics, Banking and Policy** Penelope Hawkins, Ioana Negru, 2022-12-19 This edited collection seeks to advance thinking on money and the monetary nature of the economy macroeconomic analysis and economic policy setting it within the context of current scholarship and global socioeconomic concerns and the crisis in the economics discipline A key aim is to highlight the central contribution that Sheila Dow has made to these fields Bringing together an impressive panel of contributors this volume explores topics including central bank independence liquidity preferences money supply endogeneity financial regulation regional finance and public debt The essays in this collection will be thought provoking reading for advanced students and scholars of macroeconomics monetary economics central banking and heterodox economics Contributors have a broad range of

professional experience at universities central banks business development institutions and policy advisories

Neoliberalism 2.0: Regulating and Financing Globalizing Markets L. Nijs, 2016-01-26 In today's increasingly globalized environment many economic fundamentals need to be reconsidered in order to regain stability in the global marketplace One such consideration is the failing dynamics of the international tax infrastructure Neoliberalism 2.0 brings a 21st century assessment of the Pigovian taxes considering a completely new calibration of the international tax systems inspired by the historically developed Pigovian tax model The book considers the impact neoliberalism had and will have on regulatory infrastructure democracy in an era of globalization and reduced legitimization of the national state The Pigovian model brings home the often forgotten relationship between taxation as a part of the regulatory sphere macro economics and the political philosophical context in which law and economics emerge The model also takes into account the phenomena of globalization and financialization and is tested using the financial sector as an example This book addresses the many challenges a Pigovian shift would imply for the sovereign and its national economies Neoliberalism 2.0 demonstrates the ability to design a paradigm changing alternative to the current tax infrastructure while taking into account a low economic growth environment of the future the implications of globalization and the changing relationship between citizens and their state

The Economics of Defense Industry Thomas-Durell Young, 2023-10-17 This book on the economics of defence industry assesses a series of historical and contemporary case studies that consistently demonstrate the need for governments to recognise and thereafter factor the financial needs of a narrow industrial sector that is capital intensive technologically advanced and that requires a highly skilled labour force Since the end of the cold war Western governments have systematically reduced financial support to their domestic defence industry and have seemingly ignored planning and funding industrial mobilisation In all cases government policy has been to encourage industries to consolidate capacity to become financially viable in a sector that has seen diminished demand The 2022 Russian invasion of Ukraine has caused Western governments to reassess their previous assumptions Efforts to increase industrial capacity have been met with the iron laws of economics whereby businesses need to show return on investments The chapters in this volume posit that efforts to rationalise industrial capacity and innovation to meet short term financial efficiencies inevitably results in limited expensive and long delays in increased production in times of international crisis This book serves as an essential guide for academics researchers and students interested in defence economics industrial economics international relations and industrial policy The chapters in this book were originally published in various issues of Defense Security Analysis

Experimental Conversations Timothy N. Ogden, 2024-03-19 Discussions of the use and limits of randomized control trials considering the power of theory external validity gaps in knowledge and what issues matter The practice of development economics has undergone something of a revolution as many economists have adopted new methods to answer perennial questions about the effectiveness of anti poverty programs In this book prominent development economists discuss

the use and impact of one of the most significant of these new methods randomized control trials RCTs and field experiments In extended interviews conducted over a period of several years they explain their work and their thinking and consider the broader issues of how we learn about the world and how we can change it for the better These conversations offer specialists and nonspecialists alike a unique opportunity to hear economists speak in their own words free of the confines of a particular study or econometric esoterica The economists describe how they apply research findings in the way they think about the world revealing their ideas about the power of theory external validity gaps in knowledge and what issues matter Also included are interviews with RCT observers critics sponsors consumers and others Each interview provides a brief biography of the interviewee Thorough annotations offer background and explanations for key ideas and studies referred to in the conversations Contributors Abhijit Banerjee Nancy Birdsall Chris Blattman Alex Counts Tyler Cowen Angus Deaton Frank DeGiovanni Esther Duflo Pascaline Dupas Xavi Gine Rachel Glennerster Judy Gueron Elie Hassenfeld Dean Karlan Michael Kremer David McKenzie Jonathan Morduch Lant Pritchett Jonathan Robinson Antoinette Schoar Dean Yang **Working Today for a Better Tomorrow in Ethiopia** Emily Weedon Chapman, Margaux Vinez, 2024-03-06 Working Today for a Better Tomorrow in Ethiopia Jobs for Poor and Vulnerable Households **Pharmaceutical Industry and Public Policy in Post-reform India** Reji K.
