**Not Accountable** Philip K. Howard, 2023-01-24 With this searing five point indictment Philip K Howard argues that union controls have disempowered elected executives and should be unconstitutional Union power in government happened almost by accident in the 1960s ostensibly to give public unions the same bargaining rights as trade unions But government bargaining is not about dividing profits but making political choices about public priorities Moreover the political nature of decision making allowed unions to provide campaign support to friendly officials Public bargaining became collusive The unions brag about it We elect our own bosses Sitting on both sides of the bargaining table has allowed public unions to turn the democratic hierarchy upside down Elected officials answer to public employees Basic tools of good government have been eliminated There s no accountability detailed union entitlements make government largely unmanageable and unaffordable and public policies are driven by what is good for public employees not what is good for the public Public unions keep it that way by brute political force harnessing the huge cohort of public employees into a political force dedicated to preventing the reform of government The solution Howard argues is not political but constitutional America s republican form of government requires an executive branch that is empowered to implement public policies not one shackled to union controls Public

employees have a fiduciary duty to serve the public and should not be allowed to organize politically to harm the public This short book could unlock a door to fixing a broken democracy **Crisis Management** Petter Gottschalk,2024-12-18 Crisis Management Recovering the Social License by Corporate Conformance expands the literature on crisis management by drawing on criminological concepts such as individual and corporate deviance by misconduct convenience Gottschalk discusses a variety of crisis management situations and crisis management readiness is emphasized The theory of convenience suggests that deviance is caused by motive of possibilities or threats opportunity to commit and conceal and willingness for deviant behaviour depending on convenience orientation The social license to operate that refers to the extent of stakeholder acceptance of business operations can be recovered in a crisis situation this book describes the crisis management and strategies that should be employed when the social license has been violated **Huber V. Marcel Levi, 2017-12-09 Wonderlijk de ambtenaren van VWS en de managers bij de zorgverzekeraars delibereren bij voortdurend over slimme aanpassingen op de deelbudgetten voor de zorg. Artsen daarentegen schuiven maar heel incidenteel aan voor overleg over wat toch hun core business is. Dat zou wel eens een kostbare weeffout in het maatschappelijke systeem kunnen zijn. Dokters hebben misschien de reputatie dat zorgbudgetten nooit hoog genoeg kunnen zijn. En het is juist dat ze liefst het onderste uit de kan willen halen om hun patiënten te genezen. Maar het zijn ook realisten. Niet alles moet wat kan. En als ze pleiten voor verhoging van het ene deelbudget dan komen ze als zorgexperts beslist ook met een relatieve verlaging van een andere kostenpost. In dit boek 28 auteurs met onbetwistbare geneeskundige en evenzeer bedrijfs-economische expertise met concrete voorstellen tot verschuivingen in zorgbudgetten met alternatieven die per saldo geen extra geld kosten. Het debat hierover wordt vergemakkelijkt doordat elk hoofdstuk opent met een duidelijke stelling.
