web in this section we introduce the trigonometric functions using a right triangle there are 6 main trigonometric functions sine cosine tangent cotangent secant and cosecant for acute angles these functions can be defined as ratios between the sides of a right triangle consider a right triangle abc with an acute angle α

web a right triangle is a type of triangle that has one angle that measures 90° right triangles and the relationships between their sides and angles are the basis of trigonometry in a right triangle the side that is opposite of the 90° angle is the longest side of the triangle and is called the hypotenuse
