## **Tigers Facing Extinction Report:**

*Special Scientific Report--wildlife*, 1949      *Rhino and Tiger Conservation* United States. Congress. House. Committee on Resources. Subcommittee on Fisheries Conservation, Wildlife, and Oceans, 1998      Bones of the Tiger Hemanta Mishra, 2013-10-15 Tiger tiger burning bright In the forests of the night Majestic and beautiful ferocious and lethal the tiger has captivated the imaginations of people the world over for centuries Inspiring myth and folklore as a graceful creature and terrifying predator this big cat has long paced the jungles of Asia in a history strewn with conflict between man and beast man eating tigers have terrorized people for centuries But in the twenty first century this conflict has turned on its head tiger eating men fund a very lucrative black market for tiger parts and poachers and habitat destruction have brought the population down to less than 3500 individuals in the world today A true adventure tale *Bones of the Tiger* tells the fascinating story of one man's quest to save the man eating tigers of Nepal      **Status Report on Cats (Felidae) of the World, 1971** John L. Paradiso, 1972 Thirty six species of wild cats Felidae recognized in the world today Part 1 of this report presents evidence that eight of these species with currently recognized subspecies are endangered This report draws upon the best scientific commercial and management data available today Part 2 is an annotated list of species that cannot be considered endangered at the present time      *Hearings, Reports and Prints of the Senate Committee on Commerce* United States. Congress. Senate. Committee on Commerce, 1968      **A History of Environmentalism** Marco Armiero, Lise Sedrez, 2014-07-31 Think globally act locally has become a call to environmentalist mobilization proposing a closer connection between global concerns local issues and individual responsibility A History of Environmentalism explores this dialectic relationship with ten contributors from a range of disciplines providing a history of environmentalism which frames global themes and narrates local stories Each of the chapters in this volume addresses specific struggles in the history of environmental movements for example over national parks species protection forests waste contamination nuclear energy and expropriation A diverse range of environments and environmental actors are covered including the communities in the Amazonian Forest the antelope in Tibet atomic power plants in Europe and oil and politics in the Niger Delta The chapters demonstrate how these conflicts make visible the intricate connections between local and global the body and the environment and power and nature A History of Environmentalism tells us much about transformations of cultural perceptions and ways of production and consuming as well as ecological and social changes More than offering an exhaustive picture of the entire environmentalist movement A History of Environmentalism highlights the importance of the experience of environmentalism within local communities It offers a worldwide and polyphonic perspective making it key reading for students and scholars of global and environmental history and political ecology      **Paper Tiger** Carol Freeman, 2010-08-23 Images of animals generate perceptions that have a profound effect on attitudes toward species Can representations contribute to their extinction Paper Tiger considers the role of illustrations in the demise of the thylacine or Tasmanian tiger

It critiques 80 engravings lithographs drawings and photographs published between 1808 and 1936 paying attention to the messages they convey the politics of representation and the impact on the lives of animals This approach challenges conventional histories offers new understandings of human animal interactions and presents a chilling story of just how misleading and powerful visual representation can be It demonstrates how pictures together with words can have a vital influence on species survival this book is a remarkable achievement Freeman writes thoughtfully carefully and with force and the book is a very good read Nigel Rothfels University of Wisconsin Milwaukee [Saving Wild Tigers, 1900-2000](#) Valmik Thapar,2006 *Annual Report of the Marine Mammal Commission* United States. Marine Mammal Commission,2001

[Illegal Markets and the Economics of Organized Crime](#) Martin Bouchard,Chris Wilkins,2013-09-13 This book showcases recent advances in the theoretical and empirical understanding of the economic aspects of organised crime and illegal markets It provides new insights into defining and quantifying the influence of organised crime by drawing on innovative approaches to studying criminal networks and organisations such as the Hells Angels The book includes analysis of the structure of illegal drug markets from international leaders in the field Finally the text includes empirical case studies of the diverse markets where organised crime is currently active including the illegal market for crystal methamphetamine in Australia tiger products in China and the falcon and fur trades in Russia This book was based on a special issue of *Global Crime* **Impact 21**,1996 *Riding the Tiger* John Seidensticker,Peter Jackson,Sarah Christie,1999-02-08 Beauty grace and power make the tiger one of the world s most loved animals yet it is precisely these qualities that have been its downfall Poaching for skins and body parts loss of habitat and prey and conflicts between people and wild tigers have caused catastrophic declines in tiger numbers throughout their range If wild tigers are to survive through the next century we must act now *Riding the Tiger* is a comprehensive scientific and eminently readable account of the problems and possible solutions of securing a future for wild tigers Lavishly illustrated in full colour it is written by leading conservationists working throughout Asia It is a vital information resource for tiger conservationists in the field necessary reading for serious students of carnivore conservation and conservation biologists in general and an accessible overview of tiger conservation for general readers **ihuman** Othmar A Brunner,2019-09-06 In most cases the victims are being victimized by lawyers judges based on their bleeding heart attitude towards criminals This bleeding heart attitude of our present society is the beginning of the downfall of our present society as we know it In addition this book is also talking about and exposes the unfairness of our current economical situation in form of large multinational corporations closing thousands of factories in the United States of America laying off hundred thousands of workers and decimating entire communities [Tigers of the World](#) Ronald Tilson,Philip J. Nyhus,2009-11-30 *Tigers of the World* Second Edition explores tiger biology ecology conservation management and the science and technology that make this possible In 1988 when the first edition was published tiger conservation was still in its infancy and two decades later there has been a revolution not only in what is known but how

information about tigers is obtained and disseminated In the fast changing world of conservation there is a great need to summarize the vast and current state of the art to put this into historical perspective and to speculate in what yet remains to be done *Tigers of the World* Second Edition fulfills this need by bringing together in a unique way the world's leading tiger experts into one volume Despite the challenges ahead there are bright spots in this story and lessons aplenty not only for tiger specialists but large carnivore specialists conservation biologists wildlife managers natural resource policymakers and most importantly the caring public Examines the past twenty years of research from the world's leading tiger experts on biology politics and conservation Describes latest methods used to disseminate and obtain information needed for conservation and care of this species Includes coverage on genetics and ecology policy poaching and trade captive breeding and farming and the status of Asia's last wild tigers Excellent resource for grad courses in conservation biology wildlife management and veterinary programs New volume continues the classic Noyes Series in Animal Behavior Ecology Conservation and Management Common Market Reports, 1969 *In Step - A Course in English for Primary Schools Textbook 4A*, *Forest Policies, Laws, and Governance in India* Asheem Srivastav, 2024-07-16 The book delves into the intricate relationship between India's forest governance laws and policies over time examining their effects on the quality and coverage of the country's forests Historically especially during the British era and the initial phase following independence forests were valued for timber leading to increased deforestation to fulfill the rising demands of shipbuilding railways residential construction and industry The economic benefits derived from converting forest land for developmental purposes were a key factor in this trend However recent statistics indicate that except Maharashtra most of the forest rich states including MP and Chhattisgarh have lagged in economic development The history of overexploitation and diversion for non forestry use has also led to less forest area per capita India has lost tree biomass much more than its productivity potential and the average biological productivity of Indian forest is much below the global average It is extremely important to restore the health of natural forests which are by far the best and a highly cost effective carbon sequestering machine provided by nature The book also provides research data both at national and global scales to convincingly put forward the contention that natural forests are sine qua non and under no circumstances can farm and roadside plantations tea and coffee plantations and orchards be a substitute for natural forest for three important reasons 1 the influence of natural forest on rainfall 2 the complexity in maintaining energy flow and 3 the impact of natural forest or deforested sites on soil

**Sanctuary Asia**, 2004 Blood of the Tiger J. A. Mills, 2015-11-24 *Blood of the Tiger* takes readers on a wild ride to save one of the world's rarest animals from a band of Chinese billionaires Many people think wild tigers are on the road to recovery but they are in greater danger than ever from a menace few experts saw coming There may be only three thousand wild tigers left in the entire world More shocking is the fact that twice that many some six thousand have been bred on farms not for traditional medicine but to supply a luxury goods industry that secretly sells tiger bone wine tiger skin d cor and

exotic cuisine enjoyed by China's elite Two decades ago international wildlife investigator J A Mills went undercover to expose bear farming in China and discovered the plot to turn tigers into nothing more than livestock Thus begins the story of a personal crusade in which Mills mobilizes international forces to awaken the world to a conspiracy so pervasive that it threatens every last tiger in the wild In this memoir of triumph heartbreak and geopolitical intrigue Mills and a host of heroic comrades try to thwart a Chinese cadre's plan to launch billion dollar industries banking on the extinction of not just wild tigers but also elephants and rhinos Her journey takes her across Asia into the jungles of India and Nepal to Russia and Africa traveling by means from elephant back to presidential motorcade in the company of man eaters movie stars and world leaders She also journeys to the US where we meet people like Carole Baskin of Big Cat Rescue who work tirelessly to end cub petting and ban private ownership and breeding of tigers and other big cats She finds reason for hope in the increasing number of Chinese who do not want the blood of the last wild tigers to stain their beloved culture and motherland Set against the backdrop of China's ascendance to world dominance Blood of the Tiger tells of a global fight to rein in the forces of greed on behalf of one of the world's most treasured and endangered animals      **Federal Register** ,2013-12
