Restructuring Marija Ilic,Francisco Galiana,Lester Fink,2013-03-14 The writing of this book was largely motivated by the ongoing unprecedented world wide restructuring of the power industry This move away from the traditional monopolies and toward greater competition in the form of increased numbers of independent power producers and an unbundling of the main services that were until now provided by the utilities has been building up for over a decade This change was driven by the large disparities in electricity tariffs across regions by technological developments that make it possible for small producers to compete with large ones and by a widely held belief that competition will be beneficial in a broad sense All of this together with the political will to push through the necessary legislative reforms has created a climate conducive to restructuring in the electric power industry Consequently since the beginning of this decade dramatic changes have taken place in an ever increasing list of nations from the pioneering moves in the United Kingdom Chile and Scandinavia to today s highly fluid power industry throughout North and South America as well as in the European Community The drive to restructure and take advantage of the potential economic benefits has in our view forced the industry to take actions and make choices at a hurried pace without the usual deliberation and thorough analysis of possible implications We must admit that to speak of the industry at this juncture is perhaps disingenuous even misleading *2024-25 CTET/TET Class VI-VIII Math & Science*

No School Left Behind Wei Gao,Xianwei Liu,2021-07-11 Based on the fieldwork carried out at two elementary schools Merits School and Pioneer School in northeastern China the monograph details how local schools enacted the New Mathematics Curriculum Reform that was launched in early 2000 The trajectory of the reform implementation at each school was plotted out Both schools resorted to a long standing quality control mechanism i e teaching norms to operationalize the reform ideas The mechanism functioned by placing teachers under measurable supervision and evaluation aligned with the reform The schools responded to the reform following school people s raising practical concerns as well as the established school culture Merits School arrived at a two faced strategy to cope with the reform Pioneer School managed to maintain a balance between promoting reform pedagogy and maintaining good test rankings Both schools marginally involved parents in the implementation of the reform This study suggests that to achieve success reformers need to place equal emphasis on the transformation of teachers as well as local policymakers This book enriches the existing literature on the implementation of mathematics curriculum reform at the school level and brings insights into the schools implementation decisions which will appeal to policymakers curriculum researchers and administrators *IJER Vol 3-N4* International Journal of Educational Reform,1994-10-01 The mission of the International Journal of Educational Reform IJER is to keep readers up to date with worldwide developments in education reform by providing scholarly information and practical analysis from recognized
