China, Taiwan, and International Sporting Events Marcus P. Chu, 2022-07-07 Chu explores the politics behind Taiwanese cities pursuit of international sporting events and the Chinese authorities strategic measures in handling the relations with Taiwan since the 1990s It is assumed that the Chinese authorities constantly oppose Taiwanese cities application for and boycott their subsequent holding of international sporting events Doing so would obstruct Taiwan s capacity to raise its visibility and influence in world society and defend the One China principle In fact the role of China in Taiwan s pursuit of international sporting events is not invariably as a fatal obstructer but sometimes a neutral bystander or even an enthusiastic supporter Chu examines the reasons behind this phenomenon Reviewing the 18 Taiwanese bidding attempts and four hosting projects he argues that China s inconsistent response is determined by the ups and downs of Cross Strait political ties As a result this book provides insight into the nexus between sports and politics in the context of China Taiwan rivalry A must read for

Political Expression in Sport Cem Abanazir,2022-11-14 This powerful new book looks at how private institutions governing and organising sport restrict political expression Uniquely it makes a case for the freedom of expression for athletes spectators and audiences built upon philosophical foundations In the era of Colin Kaepernick and taking a knee politics and protest in sport have never been more visible and immediate Drawing on a wide range of international cases including protest actions from athletes such as Tommie Smith and John Carlos Naomi Osaka and Feyisa Lilesa as well as the reactions from sport organisations including the IOC FIFA UEFA and the NFL the book argues that the organisation of sport at the hands of associations and leagues and their transnational power to regulate adjudicate and enforce matters according to their interests lead to the restriction of freedom of expression Focusing on the individual the book presents a framework for the defence of freedom of expression in sport on moral grounds and also explores the limits to freedom of expression especially those arising from hate speech that might better serve both the individual and sport as an institution This book is fascinating reading for anybody with an interest in the ethics philosophy or politics of sport sport governance the relationship between sport and wider society or moral or political philosophy

New Media and Sport Katrien Lefever, 2012-10-04 During the past decade the media landscape and the coverage of sports events have changed fundamentally Sports fans can consume the sports content of their choice on the platform they prefer and at the time they want Furthermore thanks to electronic devices and Internet content can now be created and distributed by every sports fan As a result it is argued that media regulation which traditionally contains rules safeguarding access to information and diversity would become redundant Moreover it is sometimes proposed to leave the regulation of the broadcasting market solely to competition law This book illustrates that media law is still needed even in an era of abundance to guarantee public's access to live and full sports coverage Dealing with the impact of new media on both media and competition law this book will greatly appeal to academics and stakeholders from various disciplines such as legal and public policy political science media and communications studies journalism and European studies Additionally it contains valuable information and points of view for policy makers lawyers and international and intergovernmental organisations active in media development The book contains an up to date analysis and overview of the different competition authorities decisions and media provisions dealing with the sale acquisition and exploitation of sports broadcasting rights Katrien Lefever is Senior Legal Researcher at IBBT The Interdisciplinary Centre for Law and ICT ICRI KU Leuven Belgium The book appears in the ASSER International Sports Law Series under the editorship of Prof Dr Robert Siekmann Dr Janwillem Soek and Marco van der Harst LL M

Sports Law in the Philippines Ignatius Michael D. Ingles, 2023-09-25 Derived from the renowned multi volume International Encyclopaedia of Laws this practical analysis of

sports law in Philippines deals with the regulation of sports activity by both public authorities and private sports organizations The growing internationalization of sports inevitably increases the weight of global regulation yet each country maintains its own distinct regime of sports law and its own national and local sports organizations Sports law at a national or organizational level thus gains a growing relevance in comparative law The book describes and discusses both state created rules and autonomous self regulation regarding the variety of economic social commercial cultural and political aspects of sports activities Self regulation manifests itself in the form of by laws and encompasses organizational provisions disciplinary rules and rules of play However the trend towards more professionalism in sports and the growing economic social and cultural relevance of sports have prompted an increasing reliance on legal rules adopted by public authorities This form of regulation appears in a variety of legal areas including criminal law labour law commercial law tax law competition law and tort law and may vary following a particular type or sector of sport It is in this dual and overlapping context that such much publicized aspects as doping sponsoring and media and responsibility for injuries are legally measured This monograph fills a gap in the legal literature by giving academics practitioners sports organizations and policy makers access to sports law at this specific level Lawyers representing parties with interests in Philippines will welcome this very useful guide and academics and researchers will appreciate its value in the study of comparative sports law

Sports and Human Rights Véronique Boillet, Sophie Weerts, Andreas R. Ziegler, 2024-06-06 Based on a series of themes and case studies this book aims to illustrate the impact of sports policies and practices on individuals and their identities and to analyze the potential solutions offered by International human rights law IHRL for these infringements It bridges the gap between IHRL and sports studies and will be useful to scholars in both fields especially those unfamiliar with each other's work Furthermore by investigating the context of sport and its governance this collection offers a series of valuable insights enabling the development of an interpretation of

law in context for legal scholars in the field of human rights As the governance and regulation of sport are seen as illustrations of other forms of normativity this book also contributes to the conversation about the transnational dimension of law and legal orders In this respect it illustrates that normative autonomy in the field of sport associated with the idea of *lex sportiva* tends to be relative regarding IHRL The sporting environment is not disconnected from major contemporary social issues it constitutes a public space in which injustices can be denounced but also the theater in which prejudices are perpetuated against various parties such as athletes or workers IHRL commonly addresses attacks on individual dignity and social justice issues by guaranteeing rights to individuals and offering them protection mechanisms In this context can IHRL solve the problems encountered in the sporting environment This is the question that animates this volume This is an open access book
