## **Time Bomb Canada And The First Nations Point Of View:**

*Time Bomb* Douglas L. Bland, 2014-11-29 A look at how a major confrontation between Canada and the First Nations could erupt and how it might be prevented There are few greater tragedies than a war waged by a society against itself As *Time Bomb* shows a catastrophic confrontation between Canada's so called settler and First Nations communities is not only feasible it is in theory inevitable Grievances prejudice and other factors all combine to make the likelihood of a First Nations uprising very real *Time Bomb* describes how a nationwide insurgency could unfold how the usual police and military reactions to First Nations protests would only worsen such a situation and how on the other hand innovative policies might defuse the smouldering time bomb in our midst The question all Canadians and First Nations must answer is this Must we all suffer the disaster of a great national insurgency or will we act together to extinguish the growing danger in our midst

Point of View 2-Book Bundle Brent Rathgeber, Douglas L. Bland, Andrew Coyne, 2014-09-25 This special 2 book bundle contains two cutting edge pieces of political analysis *Irresponsible Government* examines the current state of Canadian democracy in contrast to the founding principles of responsible government established by the Fathers of Confederation The book examines the failure of modern elected representatives to perform their constitutionally mandated duty to hold the prime minister and his cabinet to account It further examines the modern lack of separation between the executive and legislative branches of government and the disregard with which the executive views Parliament The book seeks to shine light on the current power imbalances that have developed in Canadian government There are few greater tragedies than a war waged by a society against itself As *Time Bomb* shows a catastrophic confrontation between Canada's so called settler and First Nations communities is not only feasible it is in theory inevitable Grievances prejudice and other factors all combine to make the likelihood of a First Nations uprising very real This book describes how a nationwide insurgency could unfold how the usual police and military reactions to First Nations protests would only worsen such a situation and how on the other hand innovative policies might defuse the smouldering time bomb in our midst The question all Canadians and First Nations must answer is this Must we all suffer the disaster of a great national insurgency or will we act together to extinguish the growing danger in our midst Includes *Irresponsible Government* *Time Bomb* In Search of Sustainability Benjamin Cashore, 2011-11-01 In recent years the forests of British Columbia have become a battleground for sustainable resource development The conflicts are ever present usually pitting environmentalists against the forest industry and forestry workers and communities In an effort to broker peace in the woods British Columbia's NDP government launched a number of promising new forest policy initiatives in the 1990s *In Search of Sustainability* brings together a group of political scientists to examine this extraordinary burst of policy activism Focusing on how much change has occurred and why the authors examine seven components of BC forest policy land use forest practices tenure Aboriginal issues timber supply pricing and jobs **Inclusive Education in African Contexts** Nareadi Phasha, Dikeledi Mahlo, George J. Sefa

Dei, 2017-04-13 How do we articulate the possibilities limitations and challenges of inclusive schooling and education in African contexts This book insists that inclusive education cannot be taken for granted Inclusion is neither a natural nor a given educational practice It must be struggled for Bringing a critical perspective to inclusive schooling and education is imperative This book adds to current educational debates with an African lens It engages inclusive education from multiple lenses of curriculum content classroom pedagogy and instruction representation culture environment and the socio organization life of schools the pursuit of equity and social justice and the search for educational relevance It is opined that Africa cannot be left behind in rethinking educational inclusion in ways that evoke critical questions of power equity and social difference The question of learner's identity in terms of class gender sexuality disability language ethnicity and race are equally consequential for African schooling and education When inclusion is understood as wholeness of education then how schooling and education engage the complete learner her his body mind soul and spirit as well as the use of local community and Indigenous knowledges in teaching and learning become relevant Inclusion stands the risk of liberal educational agendas that simply tinker or toy with schooling and education and hardly embrace the challenge of educational change What we need is a fundamental structural change that ensures schooling and education embraces difference while grappling with the teaching of Indigeneity decolonization and resistance

*History, Empathy and Conflict* Philip Towle, 2018-05-15 This book argues that popular culture has been transformed in a silent revolution from emphasising history's heroes to its victims While city squares and stations were named in the nineteenth century after military victories now the equivalent airports are named after the victims of violence Where war reports used to focus on the leadership of the generals and the bravery of the troops now they are mostly about casualties refugees and destruction *History Empathy and Conflict*

examines the diplomatic consequences of such a revolution in sensibility Many governments have responded by apologising for their country s historic actions History teaching in schools has sometimes been revised to reflect the new emphasis and to build confidence between nations and respect for domestic minorities Not least of the reasons for these changes is the difficulty or impossibility of making restitution for past wrongs But history can also be used by the media and governments to justify intervention to protect victims of civil wars only to come to be seen as victimisers themselves The past is always difficult to interpret but is the basis of all our decisions and all institutions try to twist it to their own convenience Sympathy with history s victims is a great moral advance but it can be used by dissatisfied nations to justify their revisionist policies and with the election of President Trump in 2016 all the Great Powers claim to be history s victims
