The Chinese Particle Le M.E. van den Berg, G. Wu, 2006-09-27 Ever since the start of Chinese linguistic studies the description of the Chinese particle LE has remained elusive The classification has evolved from a listing of sentences and the discussion of contrastive pairs to a more context and discourse oriented analysis The development in recent years of inferential models and situation semantics has opened the way for a renewed study of the use of the Chinese particle LE This book discusses the Chinese data from a mental space perspective and finally reveals the role so called Chinese sentence LE plays in the construction and maintenance of discourse Reading, Writing and Resistance Robert B. Everhart, 2022-12-29 A story of everyday life in an American junior high school originally published in 1983 this book demonstrates the ways in which the school culture of early adolescence both supports and denies the cultural and economic requirements of the parent society that surrounds it It explores this school culture in relation to the local and national in political economy to class race and gender and to the needs of the state The author approaches the work of students in school as a labor process in the context of an advanced capitalist society He describes such typical junior high activities as goofing off and bugging the teacher by examining the meaning of these activities to the students engaged in them and brings acute observation and sensitivity to bear on the forms of resistance that arise among the students showing that this resistance is a form of power which students exercise in the face of their estranged status The nature and consequences of this resistance are examined in detail especially as they relate to the context of a society in which estranged labor in one form or another is the dominant characteristic for most members Throughout the book the subtle pressures the cliques the vitality the boredom and the ever present humor of school life are explored By integrating the insights of Habermas with the theories of Marx the author is able to examine the tension between the reified knowledge of the school and the regenerative knowledge of the students in a sensitive ethnography which captures the student world in ways which have been missed in the past Thy Neighbor Norah Vincent, 2013-07-30 Norah Vincent's first two books the New York Times bestseller *Self Made Man* and *Voluntary Madness* were masterworks of immersion journalism Now Vincent unleashes her considerable talents in a spellbinding novel that's as provocative and absorbing as her acclaimed nonfiction Since his parents' violent deaths thirteen years ago Nick Walsh has been living alone in his childhood home drinking drugging and debauching himself into oblivion Deranged by his relentless sorrow he begins spying on his neighbors via hidden cameras and microphones As he observes all the strange sad and terrifying things that people do when they think no one is watching Nick begins to unravel the shocking truth about how and why his parents died **The Literary Gazette and Journal of Belles, Lettres, Arts, Sciences, etc. for the Year 1818** Henry Colburn, 2025-04-16 Reprint of the original first published in 1818 *The Musical*
