Time S Potential Power Parables 128:

The Good News of the Return of the King Michael T. Jahosky, 2020-09-15 Although many people today reject Christianity for intellectual reasons greater numbers of people are rejecting Christianity because it does not engage their imagination Christians must not only demonstrate that the Christian worldview is true but that it is also good beautiful and relevant The Good News of the Return of the King The Gospel in Middle earth is a book that endeavors to show the truth goodness and beauty of Jesus Christ the gospel and the biblical metanarrative by engaging the imagination through J R R Tolkien s The Lord of the Rings as well as The Hobbit and The Silmarillion In this book I propose that J R R Tolkien s The Lord of the Rings is a story about what Jesus parables are about the good news about the return of the king As a work of imaginative fiction similar to Jesus parables The Lord of the Rings can bypass both intellectual and imaginative objections to the gospel and pull back the veil of familiarity that obscures the gospel for many “*The Time Is Fulfilled*” Lynne Moss Bahr, 2020-06-25 In this study Lynne Moss Bahr explores the concept of temporality as central to Jesus s proclamation of the Kingdom of God Using insights from continental philosophy on the messianic which expose the false claim that time progresses in a linear continuum Bahr presents these philosophical positions in critical dialogue with the sayings of Jesus regarding time and time s fulfillment She shows how the Kingdom represents the possibilities of a disruption in time one that reveals the intrinsic relation between God and humanity In illustrating how Jesus s sayings regarding time are thus expressions of his messianic identity as of the world and not of the world Bahr argues that the meaning of Jesus s identity as Messiah is embedded in the disjuncture of time in the impossibility of now from which the Kingdom comes Bahr s use of critical theory in this study expands the concept of God s Kingdom beyond the traditional confines of the discipline Stories of the Middle Space Deborah C. Bowen, 2010 Postmodernism s critics often accuse the movement of being dangerously amoral because of its apparent wariness of concepts such as truth ethics and justice Stories of the Middle Space explores the possibility of postmodernism with a conscience and examines a variety of British and Canadian postmodern fiction to show how twentieth century critical theory can be brought into fruitful dialogue with a faith based perspective Highlighting the wide variety of ethical concerns considered by writers such as Timothy Findley Thomas King Carol Shields Julian Barnes A S Byatt and Salman Rushdie Deborah Bowen makes the case for a new category of postmodern realism and shows how contemporary stories about the real and the good are constructed Applying theoretical insights from Emmanuel Levinas and Mikhail Bakhtin Bowen investigates categories of postmodern realism such as magic realism parody and metafiction while laying the groundwork for Christian readings of a medium that is often perceived as largely irreligious An illuminating study of well known contemporary writers Stories of the Middle Space is a critically nuanced and methodologically innovative work that reads the postmodern from a faith based perspectives to create new literary insights Deborah Bowen addresses the ethical concerns of a wide variety of postmodern fiction from a faith based perspective that engages with the decentred discourses

of post structuralism She suggests that a focus on the middle space between language and the world not only provides new insights into the construction of the real and the notion of a good story but also resituates the possibility of Christian reading in a largely post Christian era

BOOK JACKET The New New Zealand William Edward Moneyhun,2020-01-17 Today s New Zealand is an emerging paradigm for successful cultural relations Although the nation s Maori indigenous Polynesian and Pakeha colonial European populations of the 19th century were dramatically different and often at odds they are today co contributors to a vibrant society For more than a century they have been working out the kind of nation that engenders respect and well being and their interaction though often riddled with confrontation is finally bearing bicultural fruit By their model the encounter of diverse cultures does not require the surrender of one to the other rather it entails each expanding its own cultural categories in the light of the other The time is ripe to explore modern New Zealand s cultural dynamics for what we can learn about getting along The present anthropological work focuses on religion and related symbols forms of reciprocity the operation of power and the concept of culture in modern New Zealand society *Truth on Trial* Andrew T. Lincoln,2019-09-25 Religious truth has always been in dispute but there are certain times and places in which the debate has been more intense One such period was the first century C E when the rapid spread of Christianity with its claims about Jesus produced considerable ferment The Gospel of John written late in that century presents that dispute with greater clarity than any other document of the time John presents a Jesus who claims not only to tell the truth but also to be the truth And yet as the Roman magistrate asks Jesus in John s gospel what is truth Two millennia later in the Western world pluralism and postmodernism radically challenge traditional notions of truth Is there any truth beyond the formal logic of merely analytical propositions And if there is do humans have any way of knowing it Many who have a postmodern perspective deny that either rationality or imagination can give us access to the truth Instead they adopt a throughgoing incredulity toward metanarratives Truth is again on trial An exposition of the six following subjects. 1st, The parable of the rich man and Lazarus. 2nd, The eternal duration of the material universe. 3rd, The resurrection of the just, and the second Advent of Christ. 4th, The resurrection of the unjust and its distinct nature from that of the just. 5th, A developement of the harmony of divine sovereignty with the responsibility of man. 6th, The resurrection of the prophet Samuel by the witch of Endor W. Wakeham,1847 **See My Body, See Me** Pamela F. Engelbert,2024-09-26 MeToo ChurchToo pentecostalsisterstoo Since 2018 hashtags and stories of sexual violence have appeared in all sectors of life from Hollywood to the Olympics from politics to religion from universities to seminaries and among pentecostals But amid all these stories of sexual abuse and assaults one may wonder if any stories of healing from sexual violence exist If so what does healing look like particularly among pentecostals who believe in divine healing Is it a single prayer of faith or a conglomeration of healing factors In true pentecostal form See My Body See Me systematically examines the healing stories of eight pentecostal survivors and the experiences of five pentecostal licensed counselors It then combines these experiences of both males and females with

Scripture theology psychology and culture to provide a pentecostal perspective on healing from sexual violence As a practical theological approach See My Body See Me also offers acts of ministry to provide healing spaces by way of three embodied praxes that are historically and theologically pentecostal listening waiting and learning See My Body See Me is an invitation to participate in Christ s healing ministry to see hear and believe survivors as God sees hears and believes them **Sunday School Times** ,1888 Infrastructural Ecologies Hillary Brown,Byron Stigge,2017-06-02 An integrated holistic model for infrastructure planning and design in developing countries Many emerging nations particularly those least developed lack basic critical infrastructural services affordable energy clean drinking water dependable sanitation and effective public transportation along with reliable food systems Many of these countries cannot afford the complex and resource intensive systems based on Western single sector industrialized models In this book Hillary Brown and Byron Stigge propose an alternate model for planning and designing infrastructural services in the emerging market context This new model is holistic and integrated resilient and sustainable economical and equitable creating an infrastructural ecology that is more analogous to the functioning of natural ecosystems Brown and Stigge identify five strategic infrastructure objectives and illustrate each with examples of successful projects from across the developing world Each chapter also highlights exemplary preindustrial systems demonstrating the long history of resilient sustainable infrastructure The case studies describe the use of single solutions to solve multiple problems creating hybridized and reciprocal systems soft path models for water management including water reuse and nutrient recovery post carbon infrastructures for power heat and transportation such as rural microhydro and solar powered rickshaws climate adaptation systems including a multi purpose tunnel and a floating city and the need for community based equitable and culturally appropriate projects **“The” Medical Times and Gazette** ,1879
