experiences of poor and working class students highlighting the resiliency creativity and educational aspirations of low  
income families They showcase proven strategies that imaginative teachers and schools have adopted for closing the  
opportunity gap demonstrating how they have succeeded by working in partnership with low income families and despite  
growing class sizes the imposition of rote pedagogical models and teach to the test mandates The contributors teachers  
students parents educational activists and scholars repudiate the prevalent but too rarely discussed deficit views of students  
and families in poverty Rather than focusing on how to fix poor and working class youth they challenge us to acknowledge  
the ways these youth and their families are disenfranchised by educational policies and practices that deny them the  
opportunities enjoyed by their wealthier peers Just as importantly they offer effective school and classroom strategies to  
mitigate the effects of educational inequality on students in poverty Rejecting the simplistic notion that a single program  
policy or pedagogy can undo social or educational inequalities this Reader inspires and equips educators to challenge the
