*Claims* Tiziana de-Magistris,2020-05-28 This book presents different articles focused on the role of nutritional properties and or health related claims on choice preferences choice behavior healthy eating healthy diet and the willingness to pay for certain foods      Advances in Managing Humanitarian Operations Christopher W. Zobel,Nezih Altay,Mark P.

Haselkorn,2015-12-17 This volume provides a survey of current research problems and results in humanitarian operations research. Additionally, it discusses existing applications of humanitarian operations research and considers new research efforts that clearly extend existing research and applications. The book is divided into three sections that provide an overview of the subject, a look at the theory, and an examination of applications. The overview section presents chapters on modeling approaches and metrics to evaluate nonprofit operations, chief findings of fieldwork research in disaster response logistics, the use of cash as a form of relief, and measuring markets that supply cash-based humanitarian interventions. The theory section includes chapters that examine the partner proliferation problem in disaster response networks, a case study of humanitarian logistics that examines how humanitarian culture informs change adoption, and a look at the current state of the art for information visibility in humanitarian operations. Finally, the application section focuses on blood products, vaccines, and food assistance, with individual chapters on efficient inventorying and distribution of blood products during disasters, a detailed look at modeling in the context of the vaccine supply chain, a framework for achieving equity, effectiveness, and efficiency in food bank operations, and a spatio-temporal vulnerability assessment of the resilience of a population affected by sudden lack of food. **Strategic Innovative Marketing and Tourism** Androniki Kavoura, Victor-Alexandru

Corley, P. B. H. Tinker, 2015-12-21 The oil palm is the world's most valuable oil crop. Its production has increased over the decades, reaching 56 million tons in 2013, and it gives the highest yields per hectare of all oil crops. Remarkably, oil palm has remained profitable through periods of low prices. Demand for palm oil is also expanding, with the edible demand now complemented by added demand from biodiesel producers. The Oil Palm is the definitive reference work on this important crop. This fifth edition features new topics, including the conversion of palm oil to biodiesel, and discussions about the impacts of palm oil production on the environment and effects of climate change, alongside comprehensively revised chapters with updated references throughout. The Oil Palm Fifth Edition will be useful to researchers, plantation and mill managers who wish to understand the science underlying recommended practices. It is an indispensable reference for agriculture students and all those working in the oil palm industry worldwide. Handbook on Water Security Claudia Pahl-Wostl, Anik

Bhaduri,Joyeeta Gupta,2016-01-29 Water security has received increasing attention in the scientific and public policy communities in recent years The Handbook on Water Security is a much needed resource that helps the reader navigate between the differing interpretations of water security It explains the various dimensions of the topic by approaching it both conceptually and thematically as well as in relation to experiences in different regions of the world The international contributors explore the various perspectives on water security to show that it has multiple meanings that cannot easily be reconciled Topics discussed include challenges from human security to consumerism how trade policies can help to achieve water security in a transboundary setting the potential of risk based governance arrangements and the ecology of water security Scholars and postgraduate students in the social sciences working on water related issues will find this book to be of substantial interest It will strongly appeal to policymakers and practitioners looking at the strengths and limitations of water security
