Introductory remarks Wakefield, Edward, 1812 [Pathway to Excellence](#) Dennis M. Docheff, 2011-03 The purpose of this book is to provide athletic coaches with simple methods to enhance their coaching technique Coaching is teaching Therefore coaches must look at their teaching effectiveness in order to become better coaches In addition the athletic arena provides a wonderful opportunity for a Christian witness Often coaches find it difficult to form a marriage between their coaching and a Christian lifestyle This book intends to meld the two together providing clear effective teacher education and biblical advice to Christian coaches The book also provides selected scriptures from God s Word Can a Christian coach really make a difference How can one Christian coach save the world of sport Well first there is more than

one Christian coach out there Second if there was only one Christian coach willing to go to battle with Christ they would fight and win One coach plus Jesus equals a majority Recall that it appeared as though David didn't stand a chance when he went to fight Goliath David was not alone David knew that God would be with him Was he afraid Maybe but his faith in God was greater than his fear Hopefully this book motivates coaches to allow their faith in Christ to shine through their coaching style and behavior

Positive Psychology Coaching Dr. Susanne Knowles, 2018-10-17 Coaching is an emerging profession across all walks of life Coaches work in communities businesses governments private and not for profit settings to assist people to grow personally and professionally More people are engaging their own life business career transition leadership or executive coaches to help them solve their life or work problems and reach their goals more quickly and easily Coaches are sounding boards to clients putting their agenda front and center and the clients back in control of their life The coach works nonjudgmentally with clients to understand their situation and needs help them become more self aware and resourceful uncover insights into themselves and what they need to do and stand side by side with them as they take the actions they need to take Why positive psychology coaching Because before people can change their behavior they often need to change their mind set A client's mind set may be positive and supportive of change or negative and is holding them back Coaching from a positive psychology perspective means that the coach and client are always focusing on what's right in life rather than what's wrong The coach works with the client to identify their limiting beliefs and reframe them into positives Together they identify solutions or goals and develop action plans to achieve these outcomes Change can happen very quickly once beliefs and actions are aligned and supported by positive affirmations that boost self esteem and self efficacy Every day we try to find meaning in life and when we don't we become confused and search for answers We can look back and despair or we can look forward into a compelling future Many people neither want nor need to see a therapist or counselor and they choose to see a professional coach instead to help them resolve their situation and find greater happiness in life
