

The background of the cover is a high-magnification, false-color micrograph of a silicon microchip die. The die is rectangular and filled with a complex, repeating pattern of circuitry. Different functional blocks are highlighted in various colors: large green rectangular blocks, smaller red blocks, and purple/blue blocks. A network of fine, light-colored lines (interconnects) crisscrosses the entire surface, connecting the various functional blocks. The overall appearance is that of a highly detailed, intricate circuit board at the microscopic level.
