**World Inequality Report 2018** Facundo Alvaredo, Lucas Chancel, Thomas Piketty, Emmanuel Saez, Gabriel Zucman, 2018-07-09 World Inequality Report 2018 is the most authoritative and up to date account of global trends in inequality. Researched, compiled and written by a team of the world's leading economists of inequality, it presents with unrivaled clarity and depth information and analysis that will be vital to policy makers and scholars everywhere. Inequality has taken center stage in public debate as the wealthiest people in most parts of the world have seen their share of the economy soar relative to that of others, many of whom especially in the West have experienced stagnation. The resulting political and social pressures have posed harsh new challenges for governments and created a pressing demand for reliable data. The World Inequality Lab at the Paris School of Economics and the University of California Berkeley has answered this call by coordinating research into the latest trends in the accumulation and distribution of income and wealth on every continent. This inaugural report analyzes the Lab's findings which include data from major countries where information has traditionally been difficult to acquire such as China, India and Brazil. Among nations, inequality has been decreasing as traditionally poor countries' economies have caught up with the West. The report shows, however, that inequality has been steadily deepening within almost every nation, though national trajectories vary, suggesting the importance of institutional and policy frameworks in shaping inequality. World Inequality Report 2018 will be a key document for anyone concerned about one of the most imperative and contentious subjects in contemporary politics and economics.

*Through A Glass Darkly* Margaret Thornton, 2015-11-08 This collection of essays arose from a workshop held in Canberra in 2013 under the auspices of the Academy of Social Sciences in Australia to consider the impact of the encroachment of the market on public universities. While the UK tripled fees in 2013 and determined that the teaching of the social sciences and the humanities would no longer be publicly funded, it was feared that Australia would go further and deregulate fees altogether. In the best tradition of the social sciences, the contributors have assumed the role of critic and conscience of society to present penetrating analyses of the ramifications of the corporatisation of the university as neoliberalism continues to occupy the ascendant position in the political firmament. The dramatis personae in these analyses are students, academics, managers and political mandarins, with the gendered character of corporatisation an important sub theme.

**The Age of Surveillance Capitalism** Shoshana Zuboff, 2019-01-31 THE TOP 10 SUNDAY TIMES BESTSELLER A NEW YORK TIMES NOTABLE BOOK OF THE YEAR ONE OF BARACK OBAMA'S TOP BOOKS OF THE YEAR Shortlisted for The Orwell Prize 2020 Shortlisted for the FT Business Book of the Year Award 2019 Easily the most important book to be published this century, I find it hard to take any young activist seriously who hasn't at least familiarised themselves with Zuboff's central ideas. Zadie Smith, The Guardian. The challenges to humanity posed by the digital future: the first detailed examination of the unprecedented form of power called surveillance capitalism and the quest by powerful corporations to predict and control us. The heady optimism of

the Internet's early days is gone. Technologies that were meant to liberate us have deepened inequality and stoked divisions. Tech companies gather our information online and sell it to the highest bidder, whether government or retailer. Profits now depend not only on predicting our behaviour but modifying it too. How will this fusion of capitalism and the digital shape our values and define our future? Shoshana Zuboff shows that we are at a crossroads. We still have the power to decide what kind of world we want to live in and what we decide now will shape the rest of the century. Our choices allow technology to enrich the few and impoverish the many or harness it and distribute its benefits. *The Age of Surveillance Capitalism* is a deeply reasoned examination of the threat of unprecedented power free from democratic oversight. As it explores this new capitalism's impact on society, politics, business, and technology, it exposes the struggles that will decide both the next chapter of capitalism and the meaning of information civilization. Most critically, it shows how we can protect ourselves and our communities and ensure we are the masters of the digital rather than its slaves.

**Popular Radicalism and the Unemployed in Chicago during the Great Depression** Chris Wright, 2022-06-14 In a time when mass joblessness and precarious employment are becoming issues of national concern, it is useful to reconsider the experiences of the unemployed in an earlier period of economic hardship, the Great Depression. Focusing on the bellwether city of Chicago, this book reevaluates those struggles, revealing the kernel of political radicalism and class resistance in practices that are usually thought of as apolitical and unideological. From communal sharing to eviction riots, from Unemployed Councils to the nationwide movement behind the remarkable Workers Unemployment Insurance Bill, millions of people fought to end the reign of capitalist values and usher in a new, more socialistic society. Today, their legacy is their resilience, their resourcefulness, and their proof that the unemployed can organize themselves to renew the struggle for a more just world.

**Saving Capitalism** Robert Reich, 2016-06-02 A very good guide to the state we're in. Paul Krugman, *New York Review of Books*. A well-written, thought-provoking book by one of America's leading economic thinkers and progressive champions. *Huffington Post*: Do you recall a time when the income of a single schoolteacher or baker or salesman or mechanic was enough to buy a home, have two cars, and raise a family? Robert Reich does. In the 1950s, his father sold clothes to factory workers, and the family earned enough to live comfortably. Today, this middle class is rapidly shrinking. American income inequality and wealth disparity is the greatest it's been in eighty years. As Reich, who served in three US administrations, shows, the threat to capitalism is no longer communism or fascism but a steady undermining of the trust, modern societies' need for growth and stability. With an exclusive chapter for Icon's edition, *Saving Capitalism* is passionate yet practical, sweeping yet exactly argued, a revelatory indictment of the economic status quo and an empowering call to action.

Democratizing Finance Fred Block, Robert Hockett, 2022-02-08 What if our financial system were organized to the benefit of the many rather than simply empowering the few? Robert Hockett and Fred Block argue that an entirely different financial system is both desirable and possible. They outline concrete steps that could get us there. Financial systems move the world's

savings from investment to investment chasing the highest rates of return They run on profit But what if investment went to the enterprises or institutions that provided things that the majority of people would prioritize Democratizing Finance includes six responses that seek to amend elaborate and challenge the arguments developed by Hockett and Block Some of the core arguments put forward by other contributors include calls for the rapid elimination of private financial entities the dilemmas of the politics associated with financial reforms and the fate of parallel proposals advanced in the US in the 1930s

**Other Rivers** Peter Hessler, 2024-08-29 Memorable One of China's most astute and sensitive foreign observers Financial Times Compassionate full of warmth Guardian More than twenty years after teaching English to China's first boom generation at a small college in Sichuan Province Peter Hessler returned to teach the next generation At the same time Hessler's twin daughters became the only Westerners in a student body of about two thousand in their local primary school Through reconnecting with his previous students now in their forties members of China's Reform generation and teaching his current undergraduates Hessler is able to tell an intimately unique story about China's incredible transformation over the past quarter century In the late 1990s almost all of Hessler's students were the first of their families to enrol in higher education sons and daughters of subsistence farmers who could offer little guidance as their children entered a brand new world By 2019 when Hessler arrived at Sichuan University he found a very different China and a new kind of student an only child whose schooling was the object of intense focus from a much more ambitious and sophisticated cohort of parents Hessler's new students have a sense of irony about the regime but mostly navigate its restrictions with equanimity and embrace the astonishing new opportunities China's boom affords But the pressures of this system of extreme meritocracy at scale can be gruesome even for much younger children including his own daughters who give him a first hand view of raising a child in China In Peter Hessler's hands China's education system is the perfect vehicle for examining what's happened to the country where it's going and what we can learn from it At a time when relations between the UK and China fracture Other Rivers is a tremendous indeed an essential gift a work of enormous human empathy that rejects cheap stereotypes and shows us China from the inside out and the bottom up using as a measuring stick this most universally relatable set of experiences As both a window onto China and a distant mirror onto our own education system Other Rivers is a classic a book of tremendous value and compelling human interest [Informality and Inclusive Growth in the Middle East and North Africa](#) Gladys Lopez-Acevedo, Marco Ranzani, Nistha Sinha, Adam Elsheikhi, 2023-06-30 The long standing informality debate in the Middle East and North Africa MENA Region has taken on a new urgency as it looks for a pathway to more socially inclusive growth that is less reliant on fossil fuels This is occurring against a backdrop of subpar labor market outcomes further growth setbacks and deteriorating fiscal and current account deficits in the aftermath of the COVID 19 pandemic and in the wake of high inflation and supply chain disruptions triggered by the Russian Federation Ukraine war Informality and Inclusive Growth in the Middle East and North Africa aims to better understand the characteristics and incentive structure
