Detailed ex. **Poppies, Politics, and Power** James Tharin Bradford, 2019-06-15. Historians have long neglected Afghanistan's broader history when portraying the opium industry. But in *Poppies, Politics, and Power*, James Tharin Bradford rebalances the discourse, showing that it is not the past forty years of lawlessness that makes the opium industry what it is, but the sheer breadth of the twentieth-century Afghanistan experience. Rather than byproducts of a failed contemporary system, argues Bradford, drugs—especially opium—were critical components in the formation and failure of the Afghan state. In this history of drugs and drug control in Afghanistan, Bradford shows us how the country moved from licit supply of the global opium trade to one of the major suppliers of hashish and opium through changes in drug control policy shaped largely by the outside force of the United States. *Poppies, Politics, and Power* breaks the conventional modes of national histories that fail to fully encapsulate the global nature of the drug trade. By providing a global history of opium within the borders of Afghanistan, Bradford demonstrates that the country's drug trade and the government's position on that trade were shaped by the global illegal market and international efforts to suppress it. By weaving together this global history of the drug trade and drug policy with the formation of the Afghan state and issues within Afghan political culture, Bradford completely recasts the current Afghan and global drug trade. **SCM Studyguide: Practical Skills for Ministry** Andrew Pratt, 2013-01-25. The *SCM Studyguide: Practical Skills for Ministry* offers a practical introduction for those who are training for ministry, both lay and ordained, within the church. The book answers the questions asked by those preparing for ministry and by those who have recently started and found gaps in the way they have been prepared. The author uses real examples drawn from his experience of over 20 years of pastoral ministry, together with work in chaplaincy and broadcasting, and the shared experience of others. The book covers all those aspects of ministry required within the more practical contextual areas of the course of preparation for ministry in use by mainstream denominations, such as baptisms, weddings, working with others, communication, meetings, and funerals. It provides practical guidance which is soundly theologically and pastorally based. Comprehensive Guide to Hallucinogenic Plants Nouredine Chaachouay, Abdelhamid Azeroual, Lahcen Zidane, 2025-03-12. circumstances Opium production and use connote international intrigues illicit wealth and social degeneracy to industrialized societies The experiences and attitudes of those growing and using opium in poppy producing areas are not always so dramatic or so negative
