**Clinical Nursing Skills** Christy Bowen, 2024-09-16 Clinical Nursing Skills is designed to equip nursing students with the practical knowledge and hands on skills necessary to provide comprehensive patient care. The material emphasizes the application of clinical judgment in a variety of settings ensuring that students are prepared to deliver high quality care across different patient populations and clinical scenarios. The content utilizes concepts promoting the development of clinical judgment by building upon the systematic model developed by the National Council of State Boards of Nursing (NCSBN). Clinical Nursing Skills provides detailed instructions on basic procedures such as hygiene, mobility, vital signs assessment, medication administration, and wound care. It also guides students through more complex skills including intravenous therapy, catheterization, tracheostomy care, and emergency interventions. By integrating the Clinical Judgment Measurement Model, the material helps students recognize, analyze, prioritize, create, act, and evaluate outcomes in various clinical situations, fostering critical thinking and clinical decision making. By studying Clinical Nursing Skills, students will gain the confidence and competence needed to perform essential nursing tasks, make informed clinical decisions, and provide compassionate patient centered care which will prepare students for success in their clinical rotations and future professional practice. This is an adaptation of Clinical Nursing Skills by OpenStax. You can access the textbook as pdf for free at [openstax.org](https://openstax.org). Minor editorial changes were made to ensure a better ebook reading experience. Textbook content produced by OpenStax is licensed under a Creative Commons Attribution 4.0 International License.

**Competency in Pediatric Nursing** Karen Gunter, Sandra Matteson, 2001 Competency in Pediatric Nursing: A Modular Training Program provides comprehensive clinical education in nursing care for children and infants with complex medical conditions. This unique manual teaches a skill set that can be applied in any setting in the home, in hospital, neonatal or pediatric intensive care units, or in long term or sub acute facilities. In developing this learning system, the authors observed thousands of hours of pediatric nursing care. The result: each training module is based on procedures and techniques that have been tested and refined in actual practice settings and have been proven effective by pediatric nurses and healthcare administrators. Medical educators and trainers will find Competency in Pediatric Nursing facilitates interactive learning. Each module is designed as a teaching and learning practicum with charts and diagrams illustrating every procedure and technique. And all 15 learning modules are included in a CD-ROM with 500 Power Point slides that accompanies the manual. Checklists and self test materials allow practitioners to evaluate their performance in each competency. These assessment tools are treatment guidelines that provide nurses with positive incentives to expand their knowledge base and improve nursing skills. Healthcare administrators will find objective performance measures that can be used to raise the standard of pediatric nursing care. Each learning module in Competency

in Pediatric Nursing includes competency checklists and tests that can be submitted for Continuing Education credits Upon successful completion of each test Nursing CE credits will be awarded a total of 15 nursing CE credits can be earned by demonstrating competency in each of the subject areas covered in the manual For Orders and Inquiries please call 1 888 427 5800
