their reality as they undergo a transformational journey of becoming a journey that is directed both outward into the world and inward into the self We learn how in their struggle to engage in a meaningful practice that fulfills their goals as nurses their purpose was hindered or achieved In large part the story unfolds in the voices of the NPs themselves but their words are complemented by descriptive passages and excerpts of poetry that construct an animated and powerful commentary on their journey Poised between two worlds NPs make a significant contribution to the work of their colleagues and to the care of patients and families The Acute Care Nurse Practitioner offers an experiential alternative to conventional discourse surrounding this health care provider s role The Independent Practitioner Robert M.
