

## VLSM Addressing Circle Method

### Problem 11

Using the network diagram and information given create an addressing scheme which utilizes variable-length subnet masks. Show the subnet address and CIDR in the circle below, color or shade the sub-subnets used. This business will be using the class C address 200.20.20.0. Remember to start with your largest groups first.

Color in the necessary circle sections used with different shades to highlight each subnet.
