At Home with God: Here and Now Lee Adams Young, 2000-05-25 From biblical times through the Middle Ages and the Reformation the Christian religion enjoyed a sturdy belief in God consistent with human knowledge of the universe But modern science then introduced a new picture of this world at odds not only with the old world picture but with the miracle working God of ancient Scripture Of the many different responses to this conflict three stand out i To deny the religious view of God and the world orii To deny many solid findings of generations of scientists concerning the evolution of stars the Earth and life oriii To deny little yet to affirm little in religionto repeat ancient rituals without serious conviction Lee Adams Young a physicist and Bible scholar claims to replace this chaos with an orderly view of God and the worldin only 437 pages He makes three main points 1 The Bible consistently but falsely split the world into two separate realms Heaven and Earth God rarelyor neverleft his celestial throne room to visit the Earth The steeples of traditional churches pointed toward this Sky God and the Lord s Prayer still speaks of a Father in Heaven The result has been a disconnect between God and the believer a chasm bridged only by armies of angels and other intermediaries or via long distance calls The solution according to *At Home with God Here and Now* is to proclaim as does science that there is only one realm of reality God should be seen as dwelling in this world says Youngindeed within each of us available for direct communication and personal support Prayer should take the form of face to face communication with a person no farther away than the other end of a park bench 2 The Bible consistently and correctly insists upon the inseparability of the human body and soul So does Aristotle and the latest Catholic Catechism Alas in postbiblical times many Jews and Christians have come to believe that at death the human soul could detach itself from the body and ascend to Heaven Young responds as follows a If there is no Heaven the latter step has no meaning We are face to face with God now in this life Because we already live in a sacred world one need not die in order

to reach the divine b The notion of a soul that can function independently of bodily support goes against ancient and modern awareness of the influence of bodily conditions on thinking and memory c Near death experiences NDEs are reports from the living not from those who died Medical research shows that NDEs are triggered not by the objective peril of death but by the subjective fear of death d Human faith in an afterlife can blunt the human need to put interpersonal relationships in order in this life We must mend our personal fences nowthere is no second chance as the Hebrew Bible says 3 The God depicted in Young s book is entirely consistent with modern science That God is seen as the essential governor of nature whose regularities people depend on and science describes This book is recommended to all who seek a religious faith based on reality not makebelieve a faith grounded in ancient wisdom yet believable in this modern age **THE LOVE OF THE TRUTH** BRIAN DECK,2020 **The Parables of Our Lord** Henry Calderwood,1880 Making Sense of Your World W. McLaren,2000-06-27 Is there a God What might God be like What is the relationship between faith and certainty Can intelligent people believe in spiritual realities Why are there so many religions Is it possible to experience a relationship with God and if so how If you ve asked questions like these you re in good company From songwriters such as Bob Dylan and Jewel Kilcher to TV shows such as The X Files and Touched by an Angel the media and the arts reflect postmodern men and women s search for a living faith and a

In Search of God the Mother Lynn E. Seeking God's Face Notto R. Thelle, 2008 Is it possible to find God beyond the distorted images and empty words Can we even speak about God at all The author claims that it is more important than ever to look for a truer image of God A person who seeks God's face will be compelled at the same time to seek his or her own face Conversely those seeking to find themselves are often compelled to search for God The book describes faith as a spacious landscape in which one can breathe freely and engages the rich imagery of the Bible to help the individual breathe freely and find orientation without feeling imprisoned This openness and freedom are to be found in the Gospel itself says the author They were lived by the Master himself who portrayed the face of God by meeting human beings where they actually were not where they ought

Paige, 1845 **Respecting Truth** Lee McIntyre, 2015-06-05 Throughout history, humans have always indulged in certain irrationalities and held some fairly wrong-headed beliefs. But in his newest book, philosopher Lee McIntyre shows how we've now reached a watershed moment for ignorance in the modern era due to the volume of misinformation, the speed with which it can be digitally disseminated, and the savvy exploitation of our cognitive weaknesses by those who wish to advance their ideological agendas. In *Respecting Truth: Willful Ignorance in the Internet Age*, McIntyre issues a call to fight back against this slide into the witless abyss. In the tradition of Galileo, the author champions the importance of using tested scientific methods for arriving at true beliefs and shows how our future survival is dependent on a more widespread reasonable world.
