Middle Grades Curriculum Kathleen Roney, Richard

P. Lipka, 2013-05-01 High stakes testing standards and accountability politics is taking us away from the importance of the affective domain in curriculum development This critical learning domain is often an unrecognized and infrequently considered topic in the literature Through this book we extend the current knowledge base by addressing a curriculum model developed in the 1980s We add a 2012 knowledge base as we delineate the role of self perceptions in school related learning

how middle level curriculum affects self perceptions and the type of curriculum planning which enhances self perceptions and improves learning in the cognitive affective and psychomotor domains The combination of sound psychological principles and practical teaching and curriculum suggestions with an empirical basis makes the book attractive to both higher education and local school professional libraries In the former it will serve as the primary text in graduate and advanced undergraduate middle level education programs and practices courses It might also be a primary text in courses or workshops in affective education or other experiences which emphasize affective values and self concept It also has potential as a supplementary text in undergraduate educational psychology courses At the in service level this book could be used as a workshop resource or as a professional reference for middle level teachers administrators curriculum workers and supervisors Our interest in young adolescents and their school setting coincides with the fourth edition of *This We Believe* NMSA 2010 The self enhancing school is characterized by from to statements for example from avoiding parents to working with parents Using theory and research we discuss the costs of staying in the from position and the benefits derived from moving to the to position By combining educational psychology and curriculum development we make a unique contribution to middle grades curriculum developers *Resources in Education* ,1997 *New York Magazine* ,1989-10-23 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **Canadian Books in Print.**
