Relationship

The diagram displays a complex Entity Relationship (ER) model. It includes several entity sets represented by rectangles, each containing a list of attributes. These entities are interconnected by relationship sets, shown as ovals. Some relationships are one-to-one, while others are one-to-many or many-to-many. The diagram is organized into a hierarchical structure, with some entities at the top and others below them, connected by lines. The overall layout is clean and professional, typical of a database design tool's output.
