

SPECIAL FEATURES

THE ALARM SYSTEM*

The alarm offers two types of protection:

- **exterior protection:** the alarm sounds if a door, the boot or the bonnet is opened;
- **interior protection:** the alarm sounds if there is a variation in the volume inside the vehicle (breaking of a window or movement inside the vehicle).

Setting the alarm

Switch the ignition off and get out of the vehicle.

Activate the alarm within five minutes following your exit from the vehicle, by locking using the remote control key (the red indicator light on the switch 1, which can be seen from the outside, flashes once a second).

When the alarm is triggered, the siren sounds and the direction indicators flash for thirty seconds.

After it has been triggered, the alarm becomes operational again.

Note: if you wish to lock your vehicle without setting the alarm, lock it using the lock.

Warning key in the door

If, on setting the alarm, a door, the boot or the bonnet are not closed correctly, the siren sounds for a moment.

Close the vehicle correctly to set the alarm.

If the interior protection alarm is triggered ten times in succession, it is disarmed automatically. It must be set again in order for it to operate correctly.

Disarming the alarm

Unlock the vehicle using the remote control key (the red indicator light on the switch 1 goes out).

Note: if the warning light flashes, it is a sign that the alarm has been triggered in your absence.

To stop it, switch on the ignition.

Note: when the alarm is set, but the remote control no longer works:

- unlock the doors using the key and open the door; the alarm is triggered;
- switch the ignition on within ten seconds; the alarm is disarmed.

To set the alarm with exterior protection only.

If, while you are away from the vehicle, you wish to leave a window partially open or a pet inside the vehicle, you need to select exterior protection only:

- Switch off the ignition.
- Press the button 2 until the light 1 comes on continuously.
- Get out of the vehicle.
- Press the locking button of the remote control.
- The doors lock.
- The red light on the switch flashes once a second.

Malfunction

When the ignition is switched on, fixed lighting of the red indicator light, located in the centre of the fascia, indicates a siren connection fault.

Contact a PEUGEOT dealer to have the system checked.

Do not make any modifications to the alarm system.

* According to destination.
