Peugeot 308 Turbo Problem:

The History of Speed Martin Roach, 2020-10-29 A special treat The pictures and stories combine to provide a rich texture to telling the difficult story of why we chase speed like an addiction Valerie Thompson the world's fastest female motorcycle racer Ever since we built machines that could transport us there has been a desire to find ways to make them go faster For some going faster isn't enough they want to be the fastest This book celebrates those who have built the machines and driven them at ever greater speeds This is The History of Speed Bestselling motorsport writer Martin Roach tells the extraordinary story of those who have come to be obsessed by speed From Camille Jenatton the Red Devil who became the first man to drive at over 100kmh in 1899 through the golden age of Malcolm Campbell and his Bluebird and on to the modern era of jet and rocket propelled cars we have gone faster and faster But this book is not just about these record breakers Roach also looks at the technology the engines and the inventors who helped progress in speed at all levels from Formula One to the supercars from the likes of Ferrari and Mercedes that are eagerly snapped up by collectors rarely to be seen on the road Accompanied by some of the most stunning images of the cars and those who made and drove them Roach tells a wonderful story of innovation and invention He talks to some of the great drivers to find out what inspires them to risk their lives and finds out from engineers how they developed their ideas Along the way we hear some remarkable tale and anecdotes but also find out how the pursuit of speed can also have its costs with many tragic heroes and heroines falling along the way If you've ever thrilled to the roar of a sports car engine or loved the feel of the g force as you accelerate away or even looked on in wonder at a powerful engine The History of Speed is a book that you will not want to miss out on **Car and Driver**, 1981
