Teaching Critical Thinking Laura Billings, Terry Roberts, 2014-01-09 Help students meet today's literacy demands with this new book from Terry Roberts and Laura Billings. The authors show how a seminar approach can lead students deeper into a text and improve their speaking, listening, and writing skills as recommended by the Common Core State Standards. Roberts and Billings provide easy-to-follow information on implementing Paideia Seminars in which students discuss a text and ask open-ended questions about it. When teachers use this lesson format, students are exposed to a wide range of increasingly complex texts. They also learn how to collaborate, talk about, and reflect on what they're reading to make meaning independently and together. Seminars can be done in English class and across the curriculum using social studies documents or math problems as the texts under discussion. **Teaching Critical Thinking** also offers an array of practical resources: teacher lesson plans, student samples, a list of possible ideas and values for discussion, a guide to asking good questions during a seminar, six full seminar plans including the texts covering literature, social studies, and science topics.

Strategic Writing Mini-Lessons for All Students, Grades 4-8 Janet C. Richards, Cynthia A. Lassonde, 2013 Short lessons with a big impact. Respond to your writers' needs with mini-lessons that will improve their craft and confidence. Every chapter models strategies that foster students' self-regulated, independent writing and includes adaptations that show how to adjust teaching for advanced writers, writers who struggle, English language learners, and extending the strategies across content areas. Each mini-lesson is laid out step by step for ease of use, including sections on materials needed, modeling the lesson, student practice, and independent writing.
