**Epic Adventures** Jan Jansen, Hendrik M. J. Maier, 2004 The many adventures of the epic in modern times are fascinating topics in themselves The Romantics claimed that every self respecting nation should at some time have had one and they set out to reconstruct these epics for political as well as cultural reasons Such epics represented earlier stages in the development of nation states and in this modern world they were for a long time hard to appreciate The introduction of tape recorders however brought the epic back in the limelight It became fashionable for scholars to record long oral narratives and to present them as long written poems that reflected deeply ingrained ideas Because of this technology the idea of the epic was revitalized This volume presents critical analyses of epics in Sub Saharan Africa the former Soviet Union South East Asia Medieval Europe and America and discusses the process of revitalization sometimes even invention of epics in particular historical political and academic contexts Jan Jansen is a member of the Department of Anthropology of the University of Leiden Netherlands Henk M J Maier is professor in the Department of Languages and Cultures of Southeast Asia and Oceania of the University of Leiden Netherlands

thinking Part II introduces strategies supported by practical techniques to master uncertainty through Raising information awareness Increasing information availability Improving the effective use of information Maximizing information efficiency This book s combined theoretical and highly practical approach is essential reading for scholars academics business leaders project managers strategists and policymakers to bring the organization s vision for a sustainable future to life     **The Electric Program Investment Charge, Proposed ... Triennial Investment Plan ,2014     RFID: Radio Frequency IDentification: Applications and Implications for Consumers: A Workshop Report From the Staff of the Federal Trade Commission ,     Unit Operations** Ian Bogost,2008-01-25 In Unit Operations Ian Bogost argues that similar principles underlie both literary theory and computation proposing a literary technical theory that can be used to analyze particular videogames Moreover this approach can be applied beyond videogames Bogost suggests that any medium from videogames to poetry literature cinema or art can be read as a configurative system of discrete interlocking units of meaning and he illustrates this method of analysis with examples from all these fields The marriage of literary theory and information technology he argues will help humanists take technology more seriously and hep technologists better understand software and videogames as cultural artifacts This approach is especially useful for the comparative analysis of digital and nondigital artifacts and allows scholars from other fields who are interested in studying videogames to avoid the esoteric isolation of game studies The richness of Bogost s comparative approach can be seen in his discussions of works by such philosophers and theorists as Plato Badiou Zizek and McLuhan and in his analysis of numerous videogames including Pong Half Life and Star Wars Galaxies Bogost draws on object technology and complex adaptive systems theory for his method of unit analysis underscoring the configurative aspects of a wide variety of human processes His extended analysis of freedom in large virtual spaces examines Grand Theft Auto 3 The Legend of Zelda Flaubert s Madame Bovary and Joyce s Ulysses In Unit Operations Bogost not only offers a new methodology for videogame criticism but argues for the possibility of real collaboration between the humanities and information technology     **Link ,1987     The Missing Link** Matthew Pointon,2017-11-03 An account of Matt Pointon s journey in 2013 from Konotop in Ukraine to Bucharest in Romania visiting places like Chernobyl Kiev Odessa Chisinau Tiraspol Iasi and Suceava     **Our World's Story ,1997     Technology and Talent Strategies for Sustainable Smart Cities** Sumesh Dadwal,Hamid Jahankhani,Gordon Bowen,Imad Yasir Nawaz,2023-10-25 Acknowledging the smart cities phenomenon not as a future goal but as an active part of our present this book critically examines the strategies business models practices tools and actions needed to ensure that smart cities deliver the solutions they promise     **A Palace in the Wild** L. A. J. R. Houwen,Alasdair A. MacDonald,Sally Mapstone,2000 The essays in this collection share an overall purpose they aim to shed new light on Scottish culture during the century and a half 1475 1625 which saw the full emergence of Scotland as a player on the European political and cultural stages Throughout the book awareness of the larger European background is considered an essential element in the proper appraisal of the productions of Scottish culture Topics discussed

include the Scottish reception of and participation in general humanist learning the impact of Burgundian patterns of late medieval piety international diplomacy courtly culture under Kings James III IV V and VI and Mary Stuart poetry and politics law libraries and historiography The contributions in this volume offer innovative contextualisations and interpretations of many canonical works of Scottish culture at the same time they also seek to expand that canon by examining several less familiar artistic productions All those interested in the cultural changes inherent in the transition from the late medieval to the early modern periods and in the Northern manifestations of the European Renaissance will find much of interest in this book In the words of R L Stevenson the cultural achievement of Scotland during this period may be described as constituting a metaphoric palace in the wild

**Cultivating Peace** Melissa Schoenberger, 2019-05-17 Like Virgil who depicted a farmer s scythe suddenly recast as a sword the poets discussed here imagine states of peace and war to be fundamentally and materially linked In distinct ways they dismantle the dream of the golden age renewed proposing instead that peace must be sustained by constant labor
