Smartphone Gem Users Manual:

The Astrophotography Manual Chris Woodhouse, 2024-02-29 The Astrophotography Manual's Third Edition is the most up to date and authoritative guide for enthusiasts who want to create beautiful images of nebulae, galaxies, clusters, and the stars with the latest professional tools and techniques. The book has been completely revised and after a brief astronomy primer, it guides readers through the full astrophotography process from choosing and using equipment to image capture, calibration, and processing. An extensive Assignment section at the end shows how several deep sky objects were captured and processed. Throughout the book, the Author's combination of technical background and hands-on approach brings the science down to earth with practical methods to ensure success. This latest edition is packed full of fresh images and ideas using the latest hardware and software tools. Given its breadth, depth, and online resources, this book is ideal for those who wish to take their astrophotography to the next level.

Handbook of Mobile Learning Zane L. Berge, Lin Muilenburg, 2013-06-19 Winner of the AECT Division of Distance Learning DDL Distance Education Book Award. This handbook provides a comprehensive compendium of research in all aspects of mobile learning, one of the most significant ongoing global developments in the entire field of education. Rather than focus on specific technologies, expert authors discuss how best to utilize technology in the service of improving teaching and learning. For more than a decade, researchers and practitioners have been exploring this area of study as the growing popularity of smartphones, tablets, and other such devices, as well as the increasingly sophisticated applications for these devices, has allowed educators to accommodate and support an increasingly mobile society. This handbook provides the first authoritative account of the theory and research that underlies mobile learning while also exemplifying models of current and future practice.
