Breaking The Worry Habit - Stop Your Anxious Thoughts And Start Living! Kelly Wallace, 2020-12-10 No one likes the way constant worrying makes them feel so why is it so difficult to stop Because the mind has a tricky way of making us believe that there are positive reasons to worry On some level we believe that it will help us avoid bad things prepare us for the worst or help us come up with a solution Of course none of this happens though Instead we just feel more stressed and unable to think clearly take action or let it go For decades I was stuck in a worry habit Finally I was so tired of living in a state of anxious limbo all the time that I went to work at taming my worry beast It wasn't easy or instantaneous but the rewards were well worth the effort I feel happier and freer than ever It's like taking a much needed deep breath after being buried under a one ton weight for far too long Rather than letting your anxious thoughts spiral out of control and have them running and ruining your life it's best to face them now and start doing something to minimize or even completely eliminate it In this book I want to share some of the things I experienced the tips and exercises that helped me and many of my clients and offer some heartfelt guidance I'll show you how I finally learned to stop my anxious thoughts and start living again I want that for you too

Ludwig, 2013-07-24 People may choose to ignore their animal heritage by interpreting their behavior as divinely inspired socially purposeful or even self serving all of which they attribute to being human but they masticate fornicate and procreate much as chimps and apes do so they should have little cause to get upset if they learn that they act like other primates when they politically agitate debate abdicate placate and administrate too *King of the Mountain* presents the startling findings of Arnold M Ludwig s eighteen year investigation into why people want to rule The answer may seem obvious power privilege and perks but any adequate answer also needs to explain why so many rulers cling to power even when they are miserable trust nobody feel besieged and face almost certain death Ludwig s results suggest that leaders of nations tend to act remarkably like monkeys and apes in the way they come to power govern and rule Profiling every ruler of a recognized country in the twentieth century over 1 900 people in all Ludwig establishes how rulers came to power how they lost power the dangers they faced and the odds of their being assassinated committing suicide or dying a natural death Then concentrating on a smaller sub set of 377 rulers for whom more extensive personal information was available he compares six different kinds of leaders examining their characteristics their childhoods and their mental stability or instability to identify the main predictors of later political success Ludwig s penetrating observations though presented in a lighthearted and entertaining way offer important insight into why humans have engaged in war throughout recorded history as well as suggesting how they might live together in peace **AARP Self-Coaching** Joseph J.
