The ideas are made to not only teach the children in your care but are also inexpensive and uncomplicated. She gives lesson plans and activity ideas based upon three concepts: The Nannys Creative Curriculum, The Nannys Literacy Curriculum, and The Nannys Thematic Curriculum. Kristin also gives developmentally appropriate sample schedules for children between the ages of zero to five.

I Am a Muslim: A Modern Storybook Susan Douglass, 1995-01-01 This unit is built around a set of paired stories: one from the Qur'an or authentic traditions and one related modern story. The overall objectives are 1 to awaken the children's awareness of their identity and worth as Muslims, 2 to model Islamic behavior patterns, and 3 to cultivate a sense of identification and community with Muslims of long ago and in other parts of the modern world. While the unit is designed for kindergarten, its stories and activities may be useful for values instruction throughout the primary grades in a variety of instructional settings, including full-time, weekend, and home schools. This unit emphasizing values education may also be useful in Muslim parenting classes. Each lesson consists of the story pair to be presented to the children orally or dramatically and suggested discussion guidelines and activities through which the values and related behaviors are developed and reinforced in the children's understanding. The 15 lessons are intended to implement teaching objectives in various units taught in a typical Islamic kindergarten social studies curriculum on a selective or exhaustive basis throughout the year.

Reaching the Unseen Children Jean Gross, 2025-09-17 This new edition of the best-selling *Reaching the Unseen Children* provides a powerful and accessible resource for schools working to close the attainment gap between disadvantaged children, particularly white pupils from low-income backgrounds and their peers. It tackles head-on the issues currently confronting schools with new content on early years and on attendance, reflecting deeply worrying data showing that almost two in five disadvantaged pupils were persistently absent in the last school year. Firmly located in the current educational policy context, it incorporates the latest science on how we can develop oracy, for example, on new approaches to teaching reading, and on why belonging, school connectedness, and agency are emerging as critical to the success of disadvantaged learners. The second edition includes many new case studies from outstanding schools which have successfully drawn on and developed ideas from the first edition, making them their own. Bringing together the latest data, research, and stories from schools that have made the difference to close the gap, *Reaching the Unseen Children* remains an essential guide for anyone working in education today who is seeking equity for all their pupils.
