Sniper Training Manual Fm:

Sniper Training FM 23-10: OFFICIAL U.S. Army Field Manual 23-10 (Sniper Training) Department of the Army, 2018-09-14 The United States Army sniper is a specially selected volunteer highly trained in advanced marksmanship and fieldcraft skills. He can support special operations missions and is able to engage selected targets from concealed positions at ranges and under conditions that are not possible for the normal rifleman. The sniper's skill acts as a force multiplier where the mission is two fold: 1 to eliminate high value tactical targets on the battlefield and 2 act as observer gathering intelligence. Field Manual 23-10 provides doctrinal guidance on the mission, personnel organization, equipment, training skills, and employment of the Sniper. This manual is intended for use by commanders, staffs, instructors, and soldiers at training posts. United States Army U.S. Army FM 23-10 Sniper Training Manual U.S. Army, 2024-03-31 This field manual provides the information needed to train and equip snipers and to aid them in their missions and operations. It is intended for use by commanders, staff trainers, snipers, and soldiers at training posts, Army schools, and units. A sniper is a military paramilitary marksman who engages targets from positions of concealment or at distances exceeding the target's detection capabilities. Snipers generally have specialized training and are equipped with high precision rifles and high magnification optics and often also serve as scouts, observers, feeding tactical information back to their units or command headquarters. In addition to long range and high grade marksmanship, military snipers are trained in a variety of special operation techniques: detection, stalking, target range estimation, methods, camouflage, tracking, bushcraft, fieldcraft, infiltration, special reconnaissance, and observation, surveillance, and target acquisition. Snipers need to have complete control of their bodies and senses to be effective. They also need to have the skill set to use data from their scope and monitors to adjust their aim to hit targets that are extremely far away. In training, snipers are given charts that they're drilled on to ensure they can make last minute calculations when they are in the field. **U.S. Marine Corps Scout/Sniper Training Manual** USMC Development Education Command Staff, The U.S. Marine Corps Scout Sniper Training Manual is an essential guide for those seeking to master the art of scouting and sniping in the United States Marine Corps. This comprehensive manual covers a wide range of topics from the fundamentals of marksmanship and camouflage to advanced tactics and techniques used by elite scout snipers in the field. Whether you are an aspiring sniper, a military enthusiast, or simply curious about the training and skills required to become a scout sniper, this manual provides a detailed and informative look into the world of one of the most highly skilled and respected positions in the U.S. military. The U.S. Marine Corps Scout Sniper Training Manual is an official publication of the United States Marine Corps. The Marine Corps has a long and distinguished history of producing highly skilled scout snipers who have played critical roles in conflicts around the world. This manual represents the collective knowledge and expertise of generations of Marine Corps snipers and instructors. *U.S. Army Sniper Training FM 23.10* Department of Defense, 2016-07-31 1994 Printing This field manual provides information needed to train and equip snipers.
