Writing for Earth Scientists Stephen K. Donovan, 2017-05-08 The time has come You are an Earth scientist You've spent weeks months years working on this project now is the time to pull it together for publication You might be writing an undergraduate or graduate thesis a research paper for a leading journal a note for the newsletter of the local amateur scientific society a book review or an abstract for a specialist geological conference How do you make the transition from promising unpublished researcher to established academic author Of course the phrase academic publishing covers a multitude of sins monographs research papers book reviews conference abstracts or whatever each requires a different approach You have to decide what it is you are going to write and where to publish it There are co authors supervisors of your degree peer reviewers and editors to deal with on the way But the only way to write like an academic is to write like an academic where do you start You could do much worse than start here There are many books on how to write and be published aimed at research students and other aspiring academics Many of these are readable comprehensive and provide good advice This book is composed of numerous short chapters on this subject all directly relevant to one or more aspects of academic publishing and aimed particularly at the Earth scientists in the broadest sense Geologists will be encouraged to use the book as much as a reference as a reader dipping in to the chapters that contain relevant tips hints and comments to enable them to improve the paper that they are currently writing The book is intended to be informative readable and above all of practical application for all readers In summary the volume will be a readable compilation investigating many facets of academic publishing relevant to the Earth sciences It will be of particular interest to postgraduate students postdocs and new academics

Learning About Learning Disabilities Bernice Wong, 2011-10-13 Bernice Wong's Learning about Learning Disabilities was the first text to give equal attention to the intellectual conceptual and practical aspects of learning disabilities. The Third Edition of this popular title presents 80% new material keeping the chapters up to date in this fast moving field. With new contributors and seven new chapters, coverage is both comprehensive and thorough with three sections encompassing the research aspects of learning disabilities, the instructional aspects of learning disabilities and the issues germane to different age ranges of the learning disabled: children, adolescents and adults. Chapters summarizing research on learning disabilities include coverage of ADHD, memory, language processing, social competence, self regulation and brain structures as they apply to learning disabilities. Chapters focusing on instructional aspects of learning disabilities include coverage of teaching literacy, reading comprehension, writing and mathematics. Readers will find Learning About Learning Disabilities Third edition suitable for use as a reference source for researchers or a graduate level text. Reviews from previous editions: An undergraduate text that strikes a careful balance between the intellectual, psychological and practical aspects of learning disabilities. BOOK NEWS INC. This text provides a balanced focus on both the conceptual and practical aspects of learning disabilities. Its research coverage is more comprehensive and of greater depth than any other LD textbook and it is distinctive in its treatment of such important areas as consultation skills and service delivery. CHILD ASSESSMENT NEWS. Learning About Learning Disabilities provides a broad overview of some important issues in relation to the education and development of pupils with learning disabilities. Wong has succeeded in providing detailed descriptions and comments within a book which covers a broad range of topics. Without exception, the chapters are clearly written and accessible and many provide the reader with challenging ideas and practical suggestions. BRITISH JOURNAL OF SPECIAL EDUCATION. Provides a balanced focus on both the conceptual and the practical aspects of learning disabilities. Research coverage more comprehensive and of greater depth than any other textbook about learning disabilities. The work is distinctive in its treatment of such important areas as consultation skills and service delivery.
