**Decolonising Peacebuilding** Chamindra Weerawardhana, 2019-01-08 Exploring the conflict management trajectories of Northern Ireland and Sri Lanka this book engages in a discussion that highlights the importance of decolonising approaches to peacebuilding and conflict management in deeply divided societies Existing knowledge on the topic is largely produced in the Western academy using global North centric approaches This book written by a researcher from the global South who navigates the political life of a deeply divided society in Western Europe begins a conversation on a new 21st century re conceptualization of ethno national conflict in deeply divided societies based on a paradigm of decolonising This book will appeal to policymakers and practitioners in peacebuilding and related areas worldwide and students of peace and conflict studies as well as a general readership with an interest in decolonial approaches to world politics *Multi-Level Governance and Northern Ireland* Cathy Gormley-Heenan, Derek Birrell, 2016-04-29 This book examines the governance arrangements in Northern Ireland through a multi level lens particularly in the period since the new institutions established through the 1998 Agreement became more firmly embedded *Corporation tax in Northern Ireland* Great Britain: Parliament: House of Commons: Northern Ireland Affairs Committee, 2011-06-09 The committee supports the principle of devolving to the Northern Ireland Executive the decision over whether or not to amend the rate of corporation tax and believes this would assist the indigenous private sector to expand innovate and employ more staff The report uses 12.5% as a benchmark for the lower rate of corporation tax but suggests that on the basis that the decision is devolved to the Northern Ireland executive it may in due course choose a lower rate To maximise the benefits of a lower rate though continued progress needs to be made on other economic development policy mechanisms including planning education and incentives for research and development and exporting Low corporation tax is not a panacea for all Northern Ireland's economic ills warns the committee and there are considerable implementation issues direct comparisons with the Republic of Ireland and its experience with 12.5% are difficult because the UK and Irish tax systems are different and the UK Government would have to satisfy the criteria laid down in the Azores judgment for the tax reduction to satisfy EU rules on state aids The committee was surprised to discover HM Treasury do not know how much corporation tax is raised in Northern Ireland It is important that the Northern Ireland Executive has as much information as possible before deciding if and how it wishes to lower the rate and at least a better idea of the amount of financial risk they are taking on Furthermore the benefits of lowering corporation tax must not be outweighed by the costs to businesses and HMRC **The Barnett formula** Great Britain: Parliament: House of Lords: Select Committee on the Barnett Formula, 2009-07-17 The Barnett Formula is the mechanism used by the United Kingdom Government to allocate more than half of total public expenditure in Scotland Wales and Northern Ireland The Formula has been used for the last thirty years to determine the annual increase in allocation the increment Each year these increments are added on to the previous year's allocation the baseline to create what is now a significant block grant of

funds The Formula accounted for almost 49 billion of public spending in 2007 08 Despite the political changes within the United Kingdom the Formula has continued to be used and has never been reviewed or revised The Formula was only intended to be a short term measure and should no longer be A UK Funding Commission should be established to assess relative need in the UK s regions and advise on a new method of distributing funding to reflect those needs The baseline has never been reviewed to take account of changing population patterns this means that the grant provides funds without reference to the needs of each of the countries and regions of the UK There should be a link between the grant of funds made to each of the administrations and their actual per capita funding needs The Committee s research suggests that England and Scotland have markedly lower overall needs per head of population than Wales and Northern Ireland The Committee suggest that the UK Funding Commission undertake an assessment of relative need now and in the future and that they undertake periodic reviews as well as publish annual data about the allocation of funding between the devolved administrations
