

MS 4150 RS MP3

Navigation Radio / CD MP3 Player

CD MP3 Player

The enhanced CD player is compatible with common CD Audio, CD-R and CD-RW, but also capable of playing CDs containing MP3 files. If available, ID3 tags for "artist" and "song title" are displayed.

C-IQ – Intelligent Content on Demand

C-IQ allows you to freely select navigation software such as road maps and additional information for the duration of your trip. You only pay for your chosen services during this time period and receive updates on a regular basis.¹ Also available: C-IQ Prepaid. You will receive an access code which has to be entered into your navigation system once. Subsequently you may activate the travel products you like for single days. C-IQ Prepaid is convenient and flexible, and above all it allows you to keep track of your costs. It can be purchased for 5 or 20 days and you may choose between C-IQ Prepaid for navigation map software and C-IQ Prepaid for Travel Info products.

Info Point functionality²

When the info point function is activated, you will be warned via an acoustic and visual signal whenever you approach a set of traffic lights with a stationary speed camera or a permanently installed speed trap along your route. The C-IQ Speed Camera Info has to be activated for this to work.

¹ The Update-Service does not apply to contracts with an unlimited activation period.

² Liability cannot be accepted for the completeness and correctness of the information points and speed information. Availability can vary depending on country and provider.

³ Please note that this product is not included for all countries.

Route & Sound

Receive navigation directions whilst listening to your favourite music at the same time. Route & Sound has been enhanced further: It is possible to enter a new destination if the car and the new destination are still in the previous loaded corridor. With the track position memory, the CD is able to continue the playback of the Audio/MP3 CD from where it was interrupted as a result of downloading map content. It is an invaluable feature for audio books and MP3 CDs.

Dynamic Navigation via TMC

The system has an integrated RDS-TMC receiver (Traffic Message Channel) which is designed to locate traffic congestions and bypass them. The TMC information is evaluated and included in the route calculation. Nevertheless you may connect a second, external TMC receiver (MT 5011) to be independent from TMC reception by choosing your favourite radio station and freely select from a TMC station list.

Travel Info Browser

The Travel Guide Browser is a search engine for additional Travel Info products which you may order via C-IQ. For example you can search for department stores within the C-IQ Shopping Guide or your favorite fast food restaurant via the C-IQ Fast Food Guide.³

Extensive Destination Input Possibilities

Through the great number of input possibilities (Street, Crossing, ZIP Code, Points of Interest and any more) virtually every destination can be found. The destination input is supported by the "Intelligent Type-writer". Only the alphabetic characters which are really needed will be presented automatically.
