The White Sniper Tapio A. M. Saarelainen,2016-10-31 The remarkable story of the Finnish marksman nicknamed White Death by the Red Army for his record number of confirmed kills Simo Häyhä is the most famous sniper in the world During the Winter War fought between Russia and Finland from 1939 to 1940 he had 542 confirmed kills with iron sights a record that still stands today A man of action who spoke very little Simo Häyhä was hugely respected by his men and his superiors and given many difficult missions including taking out specific targets Able to move silently and swiftly through the landscape melting into the snowbound surroundings in his white camouflage fatigues his aim was deadly and his quarry rarely escaped The Russians learned of his reputation as a marksman and tried several times to kill him by indirect fire He was promoted from corporal to second lieutenant and he was awarded the Cross of Kollaa For sniping Simo Häyhä only ever used his own M 28 30 rifle Eventually his luck ran out and Simo received a serious head wound on March 6 1940 though he subsequently recovered The White Sniper fully explores Simo Häyhä s life his exploits in the Winter War the secrets behind his success including character and technique and also includes a detailed look at his rifle itself There are appendices on the basics of shooting the impact of fire on the battlefield battles on the Kollaa Front during the Winter War and a list of ranked snipers of the world No matter how many books on sniping you have read this must be added to your list if you are serious about shooting GunMart

The Process of Question Answering Wendy G. Lehnert,2022-11-01 Originally published in 1978 The Process of Question Answering examines a phenomenon that relies on many realms of human cognition language comprehension memory retrieval and language generation Problems in computational question answering assume a new perspective when question answering is viewed as a problem in natural language processing A theory of human question answering must necessarily entail a theory of human memory organization and theories of the cognitive processes that access and manipulate information in memory This book describes question answering as a particular task in information processing The theoretical models described here have been built on a formulation of general theories in natural language processing theories about language that were developed without the specific problem of question answering in mind By requiring programmers to be concerned with the precise form of information in memory and the precise operations manipulating that information they can uncover significant problems that would otherwise be overlooked An early insight into artificial intelligence today this reissue can be enjoyed in its historical context
