Cabals

Fig. 11

Cabals are really just multidisciplinary project teams. We've self-organized into these largely temporary groups since the early days of Valve. They exist to get a product or large feature shipped. Like any other group or effort at the company, they form organically. People decide to join the group based on their own belief that the group's work is important enough for them to work on.

For reference, read the article on cabals by Ken Fisher. It describes where cabals come from and what they meant to us early on: <http://steampipe.com/steampipe>
