STRESS ET BURNOUT Josiane PARROUTY, 2014-07-04 Dans ce livre l'auteur regroupe des méthodes et des stratégies qui ont contribué au bien-être de tous ceux qui ont participé à ses ateliers et lu ses nombreux articles publiés dans des journaux scientifiques ou sur Internet. Elle vous invite à la rejoindre dans sa quête d'optimisme et de contentement. Éviter le mauvais stress, renouveler son intelligence, gérer ses émotions au quotidien pour vivre mieux, tel est son but et certainement le votre.

Corpus Jean-Luc Nancy, 2008 How have we thought the body? How can we think it anew? The body of mortal creatures, the body politic, the body of letters and of laws, the mystical body of Christ, all these and others are incorporated in the word Corpus, the title and topic of Jean-Luc Nancy's masterwork. Corpus is a work of literary force at once phenomenological, sociological, theological, and philosophical in its multiple orientations and approaches. In thirty-six brief sections, Nancy offers us at once an encyclopedia and a polemical program reviewing classical takes on the corpus from Plato, Aristotle, and Saint Paul to Descartes, Hegel, Husserl, and Freud while demonstrating that the mutations, technological, biological, and political of our own culture have given rise to the need for a new understanding of the body. He not only tells the story of this cultural change but also explores the promise and responsibilities that such a new understanding entails. The long-awaited English translation is a bold bravura rendering. To the title essay are added five closely related recent pieces including a commentary by Antonia Birnbaum dedicated in large part to the legacy of the mind-body problem formulated by Descartes and the challenge it poses to rethinking the ancient problems of the corpus. The last and most poignant of these essays is 'The Intruder,' Nancy's philosophical meditation on his heart transplant. The book also serves as the opening move in Nancy's larger project called 'The deconstruction of Christianity.'

Le Rythme de la Vie Charles Brodie Patterson, Ce livre examine la transition d'une re-domination par le matérialisme à une nouvelle période de renouveau et de découverte. Au milieu d'un changement global dans lequel le dogmatisme se dissout, l'accent est mis sur la transformation des arts et de la perception humaine. Le matérialisme qui a prévalu au XIX^e siècle exaltant le physique au détriment de l'esprit, de la place, un nouvel ordre qui cherche à intégrer la beauté et la spiritualité dans notre compréhension du monde. La musique, l'une des plus anciennes expressions artistiques, est au cœur de cette transformation. Tout au long de l'histoire des civilisations anciennes aux compositeurs classiques, la musique a été une expression divine et a joué un rôle essentiel dans le développement des civilisations. Chaque grand compositeur a apporté quelque chose d'unique, reflétant un lien essentiel avec le divin et favorisant l'harmonie dans la vie humaine. Le livre analyse comment la musique, comme les couleurs, influence le bien-être physique et mental et comment ces vibrations peuvent être utilisées des fins thérapeutiques. Le lien entre le son et la couleur révèle une analogie prévalant où les deux formes d'expression affectent l'esprit et le corps. Les couleurs et la musique, lorsqu'elles sont utilisées consciemment, ont le pouvoir de transformer la vie et de promouvoir la santé et le bonheur. La pratique de la musique et l'appréciation des couleurs sont plus que des formes de divertissement; elles ont un fort impact sur l'état motionnel et la santé. La

relation entre les vibrations musicales et les couleurs suggère que les deux peuvent être utilisées pour créer des environnements de guérison reflétant l'harmonie et la beauté qui sont essentielles pour une vie panouie. Le livre traite également de l'importance d'une approche naturelle et équilibrée de l'art du chant soulignant que la véritable expression vocale doit être en accord avec la nature et les motions intérieures. Le développement d'un chanteur va au-delà de la technique ; il nécessite une connexion avec la musique et une compréhension équilibrée du physique, du mental et du spirituel. La vision de l'auteur est que la vraie musique transcende le matériel et relie l'être à une conscience universelle. Les grands compositeurs ont été capables de capturer l'essence du divin dans leurs œuvres et la musique devrait être l'expression de cette grandeur intérieure. La pratique et l'étude de la musique devraient refléter une quête constante d'harmonisation de la vie avec des idées aux plus élevées favorisant une évolution continue de la conscience. En outre, le livre analyse comment la résistance à la nouveauté est une constante dans l'évolution des pratiques et des croyances, y compris la critique de l'utilisation de la musique et des couleurs dans la guérison. Cependant, lorsque ces pratiques démontrent leurs bienfaits, elles remettent en question la vision conventionnelle et promeuvent une compréhension plus correcte de la santé et du bien-être. La vraie religion et le développement spirituel sont comparés à la musique où la beauté, le rythme et l'harmonie sont essentiels à une vie panouie. La recherche de la vraie religion devrait refléter une intégration des sentiments, de la pensée et de l'action aboutissant à une vie harmonieuse et pleine de sens. Enfin, le livre reflète l'importance du raffinement personnel et de la créativité. L'imagination des enfants, souvent d'inspiration, est un aspect vital de la créativité et de l'épanouissement personnel. L'éducation et la vie doivent cultiver cette créativité afin de promouvoir une vie plus riche et plus épanouissante. Le véritable raffinement vient de l'intérieur et est stimulé par des expériences extérieures qui révèlent des qualités intérieures. Le message central de ce livre est que la véritable harmonie dans la vie et dans l'art exige un accord constant avec nos idées intérieures et avec l'univers. En se consacrant à la musique, aux couleurs et au développement personnel, on peut parvenir à une vie plus riche, plus significative et plus conforme aux principes universels de beauté et de spiritualité. "Un processus de verbalisation du monde"

Jean Nimis, 2006. Cet essai considère l'œuvre poétique d'Andrea Zanzotto depuis *Dietro il paesaggio* 1951 jusqu'à *Meteo* 1996. Le mode d'expression si caractéristique du poète privilégiant tantôt le travail sur le signifiant, la sonorité, le choix et la construction syntaxique, tantôt par alternance des compositions classiques comme le sonnet, notamment multipliant d'autre part les reminiscences et références littéraires, scientifiques et mondaines, repose sur une poétique qui se veut avant tout la mise en acte d'un processus de verbalisation du monde. Quels sont les points focaux qui vont organiser ce regard particulier sur le paysage et le contexte socio-historique ? Quelles perspectives, quelle structure d'horizon vont orienter ce discours lyrique qui doit traduire tout un rapport au monde ? Comment ce chiasme sujet-monde prend-il corps dans des images et des rythmes qui rendent compte de la sensibilité du poète, la fois au langage poétique et au réel ? Autant de questions que ce travail cherche à élucider dans une étude croisée des textes poétiques et des textes critiques.
