Commercial Law Reports 2016 ,2016-12-31 Commercial law judgments South Africa *South African Medical Journal* ,1988 **'Africa Forms the Key'** Suryakanthie Chetty,2021-01-04 This book examines the work of prominent South African geologist Alex Du Toit as a means of understanding the debate around continental drift both in segregation era South Africa and internationally It contextualises Du Toit s work within a particularly formative period of South African science from the paleoanthropological discoveries that sparked debates about the origins of humankind to Jan Smuts own theory of holism Beyond South African scientific discoveries the book sets Du Toit s work against a backdrop of ideological struggles over space both domestically in terms of segregation and nationalism as well as internationally as South Africa sought to assert its position within the Commonwealth These debates were embodied by Du Toit s work on the theory of continental drift which put Africa and South Africa at the centre geologically and geographically The author also focuses on the divisions in geology caused by drift theory tracing the vigorous intellectual debate and dissent indicative of the ideological milieu within which scientific thought is constructed It traces the history of continental drift from its inception in the nineteenth century and later work of Alfred Wegener which was both elaborated upon and substantiated by Du Toit The study further focuses on Du Toit s research on continental drift in South African and South America and the geological fossil and climatological evidence used to bolster this theory *Advances in Nanotechnology Research and Application: 2012 Edition* ,2012-12-26 *Advances in Nanotechnology Research and Application 2012 Edition* is a ScholarlyEditions eBook that delivers timely authoritative and comprehensive information about Nanotechnology The editors have built *Advances in Nanotechnology Research and Application 2012 Edition* on the vast information databases of ScholarlyNews You can expect the information about Nanotechnology in this eBook to be deeper than what you can access anywhere else as well as consistently reliable authoritative informed and relevant The content of *Advances in Nanotechnology Research and Application 2012 Edition* has been produced by the world s leading scientists engineers analysts research institutions and companies All of the content is from peer reviewed sources and all of it is written assembled and edited by the editors at ScholarlyEditions and available exclusively from us You now have a source you can cite with authority confidence and credibility More information is available at <http://www.ScholarlyEditions.com> *Mining American* ,1908 **St. Stephen's Review** ,1889 **Mining Science** ,1908 **U.S. Navy Medicine** ,1977 *The Politics of Truth and Reconciliation in South Africa* Richard Wilson,2001-05-02 The South African Truth and Reconciliation Commission TRC was set up to deal with the human rights violations of apartheid during the years 1960 1994 However as Wilson shows the TRC s restorative justice approach to healing the nation did not always serve the needs of communities at a local level Based on extended anthropological fieldwork this book illustrates the impact of the TRC in urban African communities in Johannesburg While a religious constituency largely embraced the commission s religious redemptive language of reconciliation Wilson argues that the TRC

had little effect on popular ideas of justice as retribution This provocative study deepens our understanding of post apartheid South Africa and the use of human rights discourse It ends on a call for more cautious and realistic expectations about what human rights institutions can achieve in democratizing countries

The Politics of a South African Frontier Martin Chatfield Legassick, 2010 This book publishes Martin Legassick's influential doctoral thesis on the preindustrial South African frontier zone of Transorangia The impressive formation of the Griqua states in the first half of the nineteenth century outside the borders of the Cape Colony and their relations with Sotho Tswana polities frontiersmen missionaries and the British administration of the Cape take centre stage in the analysis The Griqua of mixed settler and indigenous descent secured hegemony in a frontier of complex partnerships and power struggles The author's subsequent critique of the frontier tradition in South African historiography drew on the insights he had gained in writing this dissertation It served to initiate the debate about the importance of the precolonial frontier situation in South Africa for the establishment of ideas of race the development of racial prejudice and implicitly the creation of segregationist and apartheid systems Today the constructed histories of Griqua and other categories of indigeneity have re emerged in South Africa as influential tools of political mobilisation and claims on resources

A History of the Water Hyacinth in Africa Jeremiah Mutio Kitunda, 2017-11-17

Humans and animals are not the only creatures that migrate Plants also do This book is a comprehensive and analytical account of the migration of an Old World plant water hyacinth also known to botanists as *Eichhornia Crassipes* from the Amazon Basin and surrounding areas to Africa through human agency from about 1800 to the present As an integrative work which benefits from methodologies and conceptual approaches drawn from limnology botany biology geography history ecology and other social sciences and humanities the book further explores the political economic and ecological consequences of the spread of water hyacinth from its native habitat through European botanical gardens to Africa rivers lakes dams and wetlands In part as a narrative of Western tinkering with African ecologies gone awry the study has strong lessons for environmental historians and social scientists as well as contemporary foundations aid workers development experts and African governments Although it may appear to be a micro history of a single plant water hyacinth it illuminates broader issues in the history of the modern environment in Africa and similar studies worldwide This study is primarily rooted on the histories of colonialism bioinvasion environmental realities and experiences in Africa The highly visible pathways of hyacinth's spread across international frontiers along watercourses and communication networks means that not only is this a trans boundary environmental affair but one which directly involves bilateral relations between African states
