## **Sa Military Skills Development Programme 2015 2016:**

South Africa's Post-Apartheid Military Lindy Heinecken, 2020-01-01 This timely book examines how the South African National Defence Force has adapted to the country's new security political and social environment since 1994. In South Africa's changed political state, how has civilian control of the military been implemented and what does this mean for defence in a democracy? This book presents an overview of the security environment, how the mission focus of the military has changed and the implications for force procurement, force preparation, force employment and force sustainability. The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force, the effect of affirmative action on meritocracy, recruitment and retention, military veterans looking at the difficulties they face in reintegrating back into society and finding gainful employment, gender equality and mainstreaming the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged. HIV/AIDS and the consequences this holds for the military in terms of its operational effectiveness. In closing, the author highlights key events that have caused the SANDF to become lost in transition and transformation, spelling out some lessons learned. The conclusions she draws are pertinent for the future of defence security and civil-military relations of countries around the world. *Annual Report South Africa*. Department of Defence, 2016. *The Geography of South Africa* Jasper Knight, Christian M. Rogerson, 2018-10-03 This edited collection examines contemporary directions in geographical research on South Africa. It encompasses a cross-section of selected themes of critical importance not only to the discipline of Geography in South Africa but also of relevance to other areas of the Global South. All chapters are original contributions providing a state-of-the-art research baseline on key themes in physical, human and environmental geography and in understanding the changing geographical landscapes of modern South Africa. These contributions set the scene for an understanding of the relationships between modern South Africa and the wider contemporary world, including issues of sustainable development and growth in the Global South. *Military Social Work Around the Globe* Mary Ann Forgey, Karen Green-Hurdle, 2022-11-14 This is the first book to focus on the scope of social work practice within military settings from an international perspective and therefore addresses what has been a significant gap in the literature. Given the critical support needs of military personnel and their families worldwide and the expanding role of social work in responding to these needs, this book offers a comprehensive global understanding of the common military social work (MilSW) practices with active-duty military service members and their families as well as the forms of practice and approaches that are unique or potentially transferable across nations. Based on a systematic inquiry conducted by the Editors, there are at least 25 countries that have social workers working directly within their country's military in either a civilian or uniformed capacity or both. This book includes contributions from experts in Australia, Canada, Denmark, Finland, Ireland, Israel, the Netherlands, New Zealand, South Africa, the UK and the USA who describe various aspects of the MilSW role within their country and the research that informs

what military social workers do The MilSW similarities and differences among these countries are highlighted including developmental milestones practice settings practice orientation and approach ethical dilemmas military to veteran transition support and past and current challenges Experts from countries that do not yet have MilSW but are interested in developing it Japan Ukraine or are in the process of establishing this area of practice Slovakia also contribute chapters about these developments and the evidence base that supports this direction Military Social Work Around the Globe is a valuable resource for social work programs and essential reading for instructors and students in MilSW electives and specializations It is also pertinent reading for occupational social work and international social work courses In addition this book is an important source of information for military social workers who would like to gain insights into existing programs and the possibilities for international collaboration and for countries interested in developing MilSW State, Foreign Operations, and Related Programs Appropriations for 2015 United States.
