NOTE: This recall applies only to the above vehicles equipped with an automatic transmission and a column shifter built through January 2, 2002. This recall also applies to certain late built 2002 vehicles equipped with a steering column built before January 2, 2002.

IMPORTANT: Some of the involved vehicles may be in dealer used vehicle inventory. Dealers should complete this recall service on these vehicles before retail delivery. Dealers should also perform this recall on vehicles in for service. Involved vehicles can be determined by using the VIP inquiry process.

Subject

The Ignition/Park Interlock system on about 578,000 of the above vehicles may become inoperative. This can allow the shifter to be moved out of the "Park" position with the ignition key removed (or in the "Lock" position). This can also allow the ignition key to be removed when the shifter has not been placed in the "Park" position. Either of these conditions could allow the vehicle to roll away and cause a crash without warning.

Repair

The steering column gear shift blocker must be replaced.
