Globalization, Culture and Society in Laos Boike Rehbein, 2007-08-13 Incorporating original fieldwork carried out over a period of more than ten years combined with innovative theoretical argument Globalization Culture and Society in Laos presents one of the first sociological investigations into modern Laos Boike Rehbein gives a fascinating overview of contemporary Lao culture and society whilst linking local and national phenomena to tendencies of globalization and the history of the region The book introduces a new theoretical approach based on the sociology of Pierre Bourdieu applying this sociology to the interpretation of Lao history It also examines various aspects of Lao culture and society including economics politics language higher education music and religion Rehbein concludes by attempting to synthesize these cultural elements with the impact of globalization to give a synopsis of contemporary Lao society Written by an expert in Lao history and culture familiar with the language and the people this book will be of huge interest to students and scholars of Laos Southeast Asia social theory and

globalization National University of Laos Mahāvithayālai Hāngsāt (Laos),1996* **Government, Politics, and Social Structure in Laos** Joel Martin Halpern,1964 **Changing Lives in Laos** Vanina Bouté,Vatthana Pholsena,2017-04-21

Changes in the character of the political regime in Laos after 2000 a massive influx of foreign investment and disruptions to rural life arising from improved communications and new forms of mobility within and across the borders have produced a major transformation Alongside these changes a group of young scholars carried out studies that document the rise of a new social cultural and economic order The contributions to this volume draw on original fieldwork materials and unpublished sources and provide fresh analyses of topics ranging from the structures of power to the politics of territoriality and new forms of sociability in emerging urban spaces *Government, Politics, and Social Structure of Laos* Joel M. Halpern,1995

Fields of Desire Holly High,2014-02-17 In this important new book High argues that poverty reduction policies are formulated and implemented in fields of desire Drawing on psychoanalytic understandings of desire she shows that such programs circulate around the question of what is lacking Far from rational responses to measures of need then the politics of poverty are unconscious culturally expressed mutually contradictory and sometimes contrary to self interest Based on long term fieldwork in a Lao village that has been the subject of multiple poverty reduction and development programs High s account looks at implementation on the ground While these efforts were laudable in their aims of reducing poverty they often failed to achieve their objectives Local people received them with suspicion and disillusionment Nevertheless poverty reduction policies continued to be renewed by planners and even desired locally High relates this to the force of aspirations among rural Lao ambivalent understandings of power and the post rebellious moment in contemporary Laos

Anthropological Reconnaissance in Central Laos Jan Ovesen,1993 **Embodied Nation** Simon Creak,2017-08-31 This strikingly original book examines how sport and ideas of physicality have shaped the politics and culture of modern Laos Viewing the country s extraordinary transitions from French colonialism to royalist nationalism to revolutionary socialism to the modern development state through the lens of physical culture Simon Creak s lively and incisive narrative illuminates a nation that has no reputation in sport and is typically viewed even from within as a country of cheerful but lazy people Creak argues that sport and related physical practices including physical education gymnastics and military training have shaped a national consciousness by locating it in everyday experience These practices are popular participatory performative and above all physical in character and embody ideas and ideologies in a symbolic and experiential way Embodied Nation takes readers on a brisk ride through more than a century of Lao history from a nineteenth century game of tikhi an indigenous game resembling field hockey to the country s unprecedented outpouring of nationalist sentiment when hosting the 2009 Southeast Asian Games En route we witness a Lao Vietnamese soccer brawl in 1936 the fascist inspired body ethic of the early 1940s the novel modes of military masculinity that blossomed with national independence the spectacular state theatrics of power represented by Olympic inspired sports festivals and the high hopes and frequent failures of socialist sport

in the 1970s and 1980s Of central concern in Creak s narrative are the twin motifs of gender and civilization Despite increasing female participation since the early twentieth century he demonstrates the major role that sport and physical culture have played in forming hegemonic masculinities in Laos Even with limited national sporting success Laos has never won an Olympic medal the healthy toned and muscular form has come to symbolize material development and prosperity Embodied Nation outlines the complex ways in which these motifs through sport and physical culture articulate with state power Combining cultural and intellectual history with historical thick description Creak draws on a creative array of Lao and French sources from previously unexplored archives newspapers and magazines and from ethnographic writing war photography and cartoons More than an imagined community or geobody he shows that Laos was also a body at work making substantive theoretical contributions not only to Southeast Asian studies and history but to the study of the physical culture nationalism masculinity and modernity in all modern societies

Teaching and Learning in Laos James B.

Chandler,United States. AID Mission to Laos,1973 *Conflict Resolution and Peacebuilding in Laos* Stephanie Phetsamay Stobbe,2015-06-19 Using the case study of Laos a small landlocked country in Southeast Asia that has seen some of the world s most brutal forms of poverty and violence this book examines the power of traditional and indigenous conflict resolution systems as a tool for social justice It explores how the conflict resolution mechanisms build infrastructures that support social harmony and address larger scale conflicts within communities nations and international arenas The book discusses how over centuries foreign powers have polarised and used the ethnic groups of Laos to support their own agendas and how in spite of this the Lao people have consistently managed to recreate the peace and harmony that support their social relationships whether that is within groups or between many distinct groups Through the development and use of appropriate grassroots conflict resolution structures that do not require a formal court system and exists outside the political arena they have been successful in resolving conflicts within and across cultural groups The book shows that the conflict resolution systems of Laos are embedded in the fabric of ordinary everyday life and operate independently of the hierarchical structures that dominate governing institutions Highlighting how peace continues to work its way into existence through elaborate mediation systems and rituals that bring people together this book will be of use to students and scholars of Southeast Asian Politics Peace Studies and War and Conflict Studies

Post-war Laos Vatthana Pholsena,2006

Three decades after the conclusion of the civil war that brought the communist Pathet Lao to power the leaders of the Lao People s Democratic Republic are still searching for a compelling and unifying national identity As detailed in Postwar Laos a rigorously researched cogently argued and pathbreaking book Laotian nationalism is caught between the rhetoric of preservation and the desire for modernity Using fine grained analysis of substantial ethnographic and archival material Vatthana Pholsena sheds light on the politics of identity the geographies of memory and the power of historical narrative in contemporary Laos Pholsena pays particular attention to the country s ethnic minorities who had been marginalized

politically administratively and symbolically by the French colonial government which ruled for fifty years and by its Royal Lao successor. Many members of these minorities fought for the Lao People's Liberation Army in the country's civil war 1960-1975 though and were thus exposed to the processes of modern politics. The first book to examine the impact of such forces on Laos's ethnic minorities and their perception of Laotian nationalism. Postwar Laos also refines established theories of nationalism. Pholsena addresses a weakness common to all the tendency to deny agency to individuals who may in fact interpret their relationship to and place within the nation in a variety of ways that change according to time and circumstance. Postwar Laos offers a new perspective on the history of Southeast Asia and more broadly on the formation of national identity that will be welcomed by historians, political scientists, sociologists, ethnographers and cultural anthropologists alike. **Kith and Kin Politics** Mayuri Ngaosivat, Pheuiphanh Ngaosyvathn, 1994 *Living with Transition in Laos* Jonathan Rigg, 2005-07-05 Laos the Lao People's Democratic Republic is one of the least understood and studied countries of Asia. Its development trajectory is also one of the most interesting as it moves from state or perhaps more appropriately subsistence to market. Based on extensive original research, this book assesses how economic transition and marketisation are being translated into progress or not at the local level and at the resulting impact on poverty, inequality and livelihoods. It concludes that the process of transition in fact contributes to the growth of poverty for some people and shows how people manage to cope in very unfavourable circumstances. **Small Countries, Big Diplomacy** Alounkeo Kittikhoun, 2021 This book shows how small countries use big diplomacy to advance national interests and global agendas. Using the case of Laos, it explores how a small landlocked developing state maneuvered among the big players and championed causes of international concern at three of the world's important global institutions: the United Nations, UN, the Association of Southeast Asian Nations (ASEAN) and the Mekong River Commission (MRC). Recounting the geographical and historical origins behind Laos diplomacy, the book traces the journey of the country surrounded by its five larger neighbors: China, Thailand, Vietnam, Myanmar and Cambodia, and influenced by superpower rivalries from the Cold War to the post-Cold War eras. The book is written from an integrated perspective of a French-educated Lao diplomat with over 40 years of experience in various senior roles in the Lao government, leading the country at the UN and ASEAN, and the theoretical knowledge and experience of an American-trained Lao political scientist and international civil servant who has worked for the Lao government and the international secretariats of the UN and MRC. These different perspectives bridge not only the theory-practice divide but also the government insider-outsider schism. The book concludes with seven rules for small state diplomacy that should prove useful for diplomats, statespersons, policymakers and international civil servants alike. It will also be of interest to scholars and experts in the fields of international relations and foreign policies of Laos, the Mekong and Asia in general. **Lao People's Democratic Republic** Laos, 1971 **Contemporary Laos** Martin Stuart-Fox, 1982-01-01
