examines the perennial and nefarious appeal of financial advice manuals Who hasn't wished for a surefire formula for riches and a ticket to the good life For three centuries investment advisers of all kinds legit and otherwise have guaranteed that they alone can illuminate the golden pathway to prosperity despite strong evidence to the contrary In fact too often they are singing a siren song of devastation And yet we keep listening Invested tells the story of how the genre of investment advice developed and grew in the United Kingdom and the United States from its origins in the eighteenth century through today as it saturates our world The authors analyze centuries of books TV shows blogs and more all promising techniques for amateur investors to master the ways of the market from Thomas Mortimer's pathbreaking 1761 work Every Man His Own Broker through the Gilded Age explosion of sensationalist investment manuals the early twentieth century emergence of a vernacular financial science and the more recent convergence of self help and personal finance Invested asks why in the absence of evidence that such advice reliably works guides to the stock market have remained perennially popular The authors argue that the appeal of popular investment advice lies in its promise to level the playing field giving outsiders the privileged information of insiders As Invested persuasively shows the fantasies sold by these writings are damaging and deceptive peddling unrealistic visions of easy profits and the certainty of success while trying to hide the fact that there is no formula for avoiding life's economic uncertainties and calamities

evolving identities as settler colonists Hebrew Orientalism challenges the conventional view that Hebrew thinkers were dismissive of Arabo Islamic culture revealing how they both adopted and adapted elements of it that enhanced Zionist aims Drawing on a wealth of sources ranging from Arabic medieval chronicles travel narratives and poetry to modern Hebrew geography and botany texts Mostafa Hussein provides a nuanced understanding of Hebrew orientalism by focusing on the practical activities of Hebrew writers such as recuperating the Jewish past in the East constructing Jewish indigeneity consolidating Jewish ties to Palestine s landscape enhancing understanding of the Hebrew Bible reviving Hebrew language and undertaking translation projects Through the lens of a diverse group of Jewish intellectuals ranging from Palestine born Sephardi Oriental and Ashkenazi Jews to Eastern European immigrants he unveils the complex realities of cultural exchange and knowledge production highlighting the dual role of these intellectuals in connecting with the East and promoting Zionist aspirations Hussein offers fresh insights into the role of scholarly practices in advancing new perspectives on the region and its peoples and forging a modern Zionist Hebrew identity Illuminating the intricate and often contradictory engagement of Hebrew scholars with Arabo Islamic culture Hebrew Orientalism informs contemporary discussions of postcolonialism and settler colonialism and enriches our understanding of the historical dynamics between Jews and Arabs in Palestine
