best to cultivate attunement between performer and audience Quinn begins by tracing Zeami's transformation of the largely mimetic stage art of his father's troupe into a theater of poesis in which the playwright and actors aim for performances wherein dance and chant are re-keyed to the evocative power of literary memory Synthesizing this remembered language of stories poems phrases and their prosodies and associated auras with the flow of dance and chant led to the creation of a dramatic prototype that engaged and depended on the audience as never before Later chapters examine a performance configuration created by Zeami the *nikyoku santai* as articulated in his mature theories on the training of the performer Drawing on possible reference points from Buddhist and Daoist thought the author argues that Zeami came to treat the *nikyoku santai* as a set of guidelines for bracketing the subjectivity of the novice actor thereby allowing the actor to reach a certain skill level or threshold from which his freedom as an artist might begin
