White Paper Hong Kong:

Education in Hong Kong, 1941 to 2001 Anthony Sweeting, 2004-07-01 It provides comprehensive coverage of developments in formal and informal education in Hong Kong from the end of 1941 to the beginning of the new millennium. As was true of its predecessor, each Part of this book is subdivided into three sections: Commentary, Chronicle, and Evidence. Such an organization facilitates flexible reading. Readers primarily interested in analysis, interpretation, and the identification of themes are likely to focus initially on the Commentary sections and to move as they feel stimulated to the relevant entries in the Chronicle and/or items of Evidence. Readers who seek either more encyclopedic understanding or detailed answers to specific questions may well wish to focus primarily or at least initially on the Chronicle sections and then to search for substantiation in the Evidence section or for amplification in the author's Commentary. At times some readers may wish to browse through the Evidence sections reaching possibly serendipitous discoveries. Academic and general readers are likely to be particularly interested in Part I of the book which deals with education in Hong Kong during the Japanese occupation, a topic that has received only very rare and generalization-bound treatment in other publications. The author offers insights into all levels of education. His conceptual scope incorporates many types of education including the mainstream academic education, technical education, teacher education, special education, physical education, civic education, education that focuses on morals, that which focuses on culture, and the various sorts of non-formal and informal education.

OF PAPERS AND PROTESTS: HONG KONG RESPONDS TO OCCUPY CENTRAL VOLUME 1 Guy Breshears, 2016-02 When China issued its paper on how the next Chief Executive of Hong Kong would be selected, they decided what they thought was best for Hong Kong since its return and incorporation into China. However, the reaction to China's decision was probably not expected, nor were the events that followed. With the protests, the Hong Kong government had to react, and when Occupy Central actually took place, their reaction had to be stronger. This book deals with the government reactions to the protests. It shows various government public announcements of the events as they unfolded as they tried to find an end to the protests.

Hong Kong Soft Power Frank Vigneron, 2018-03-15 In late 2014, the pro-democracy demonstrations that were called the Umbrella Movement revealed to the world that Hong Kong was not the money-obsessed society it had often been portrayed as. Hong Kong Soft Power is a description of the complex relationship the artists and activists of this city have had with the country it has been part of since 1997. Trying to understand all the varied forms of art practices possible in the Special Administrative Region by locating them within a relational model and situating them within the dynamic and changing art ecosystem that has developed over the last decade, Hong Kong Soft Power describes the local art field as a site of struggle where the connections with Chinese Mainland institutions and art practices play a fundamental role. This is not to say that this influence has entirely dominated the local art field, and this book also emphasizes how the artists of the city have engaged in practices ranging from the most personal to the most socially oriented. With the analysis of the works of about fifty local art

practitioners and a representative range of art institutions Hong Kong Soft Power is the portrait of a culture going through the trials and tribulations of rapid political and economic changes in both its negative and positive effects Rethinking the Occupy Movement in Hong Kong Shen Yang, 2024-07-25 Yang examines the political process of the Occupy Movement spanning from January 2013 when the Occupy Central with Love and Peace OCLP campaign was initiated to December 2014 when the Occupy Movement finally ended This book adopts an actor centered approach in the study of democratization and places civil society as the focus of the analysis The OCLP campaign was an attempt to transfer leadership of democratization from political parties to civil society while the incorporation of Deliberation Days further let ordinary participants decide on the electoral proposals The democratic ideals of civil society activists and the mobilization of radical democrats led the campaign to enter a radical position The Chinese government interpreted democratization in Hong Kong from a regime security perspective and took a hardliner position After the Occupy Movement finally occurred the leadership of civil society and the conception of civil disobedience contained the radical protesters However after the movement civil society organizations were blamed for its failure and contention in Hong Kong became more transgressive and decentralized This book is a valuable resource for scholars of Hong Kong's Politics and a relevant case study for those studying the dynamics of social movements and the civil society strategy in democratic transition **Hong Kong** Wei-Bin Zhang, 2006 Hong Kong has an urbanisation history of an interesting course from fishing village of the Qing dynasty under the Manchu rule to British colony with 98 per cent of its population being Chinese to global city with great wealth and business activities to Communist China's Special Administrative Region SAR from 1 July 1997 China resumed sovereignty over Hong Kong and granted Hong Kong the right to self government for at least 50 years except over diplomatic and defense matters Long before the return of Hong Kong to China the colony had already firmly established itself as a regional business centre It had been at the forefront of the East Asian economic miracle between the 1970s and the mid 1990s Lightened by multi coloured neon signs of commercial advertisements the semi westernised Chinese city is more attractive in night than in daytime Hong Kong is full of contrasts and paradoxes The wide variety of the city's contrasting and yet fluid and interesting social and cultural images aptly has been described as east and west local and colonial modern and traditional extravagant and frugal has earned it the epithet a cultural kaleidoscope The author explores these contrasts and paradoxes not only from economic cultural and social perspectives but also from perspectives of non linear theory and Adam Smith's and Confucian philosophies an endeavour which no other author has systematically made before **Hong Kong's Transition to Chinese Rule** Ralf Horlemann, 2003-09-02 Following the return of Hong Kong to Chinese sovereignty it appears that the high degree of autonomy promised to Hong Kong is limited in many ways China's reservations about the development of democracy in Hong Kong lies at the heart of the problem The conceptual inadequacies set out in the Basic Law Hong Kong's mini constitution show a correlation between a lack of democracy and a loss of autonomy This book argues that genuine autonomy from the

central government in Beijing is impossible without a democratic system in Hong Kong. Developments since the handover have however demonstrated that democratic trends have been halted and even reversed and that democracy is not likely to be established in Hong Kong in the near future. The Hong Kong Special Administrative Region in Its First Decade Joseph Y. S. CHENG, 2007-09-01 This book with 24 essays will appeal to local and international readers interested in Hong Kong. The latter include the international financial and business community researchers in Asian Studies journalists and educated tourists. Published by City University of Hong Kong Press. Education and Society in Hong Kong and Macao Mark Bray, Ramsey Koo, 2005 Sino-British Negotiations on the Handover of Hong Kong (1979-1997) Wanglai Gao, 2025-01-04 In 1997 the smooth handover of Hong Kong between China and the United Kingdom defied pessimistic predictions about Hong Kong's future. The successful resolution of the Hong Kong issue was the result of 18 years of diplomatic exchanges between Chinese and British negotiators from 1979 to 1997. The two countries were involved in intensive interactions on issues such as sovereignty and administration, democratic reform in Hong Kong, the drafting of the Hong Kong Basic Law and the PLA garrison. The book draws on a wealth of primary sources including oral histories, British parliamentary testimony and the memoirs of Chinese and British officials. It reveals fascinating bilateral exchanges between Chinese and British strategists and discloses the secret negotiations between the Chinese and the British. The book will be of interest to historians, scholars and analysts of Chinese diplomacy. **A Medical History of Hong Kong** Moira M. W. Chan-Yeung, 2021-09-01 This book focuses on a seldom discussed topic despite its immeasurable impact on the health of the citizens and public health in Hong Kong: the development of outpatient medical services and their contributions. In the early 20th century Chinese elite organized and operated a number of Chinese Public Dispensaries in Hong Kong and Kowloon initially to reduce the prevalence of dump bodies on the streets during epidemics of smallpox or plague and to determine the cause of death of these bodies. Later other services including domiciliary deliveries by trained midwives were added. The government founded similar clinics in the New Territories. After WWII the government took over all the Chinese Public Dispensaries and operated them as general outpatient clinics. Over the years more general clinics and special clinics were developed. These clinics helped improve the health indices of the population to those of the Western countries by the 1970s. Endorsement: Modern day medicine increasingly emphasises patient management on an outpatient basis. We are indebted to Professor Moira M W Chan Yeung for her tireless efforts in researching the history of medical outpatient services in Hong Kong. Through this book readers will gain insights into how outpatient medicine in the past has shaped the city's modern day healthcare system and have a glimpse into its future development. Professor Lau Chak sing, Head of Department of Medicine, LKS Faculty of Medicine, The University of Hong Kong. An exemplary piece of scholarship that interprets the past and illuminates our future paths. Seldom has history so dear and near been told with such prides and hopes for maestros and ordinary folks.
