## Obsidian New Species:

**Obsidian** Laurann Dohner, 2013-06-17 Dr Allison Baker is obsessed with saving the comatose New Species male and there s only one option left Alli will break every rule and put her life in danger by tempting 880 to wake using only her feminine scent and touch She just has to kidnap him and crawl into bed with him to make it work caressing him and wrapping her sweet body around his teasing his senses He lies silent and still listening and evaluating each arousing touch fighting his body s reaction 880 has chosen a new name Obsidian the personification of dark and dangerous And soon he ll fight to keep Alli no matter what *Inter-Societal Dynamics* Jonathan H. Turner, Anthony J. Roberts, 2023-03-01 This book by Jonathan Turner and Anthony Roberts proposes a new theoretical approach for explaining the dynamics of inter societal systems The authors argue that inter societal systems have existed since the beginning of human societies and the dynamics of these systems are a fundamental property of the social universe However while world systems analysis has emphasized this latter point the authors argue the reluctance to theorize complex abstract models and systems of explanatory propositions on the dynamics driving inter societal systems hinders scientific explanation of inter societal dynamics In this context the authors critically look at contemporary theorizing and review key theories that have been developed to explain geo economic geo political and geo cultural dynamics from the classic period through present day world systems analysis and cliometrics The book summarizes these theories clearly emphasizing their strengths and weakness finally developing a theoretical synthesis through new models and propositions on the dynamics of premodern and modern inter societal systems Professor Turner s decades of experience writing theory books for undergraduates have ensured that this book presents abstract ideas clearly and with examples so that students can understand the arguments This book is a must read for all social theory researchers academics serious undergraduate students graduate students and interested laypersons
