Attack of the New B Movies Justin Wigard,Mitch Ploskonka,2023-04-14 Since its inception in 1992 the Sci Fi Channel later rebranded as SYFY has aired more than 500 network produced or commissioned films Campy and prolific the network churned out one low budget film after another finally finding its zenith in the 2013 release of Sharknado With unpretentious charm and a hearty helping of commodified nostalgia the Sharknado franchise briefly ruled the cultural consciousness and temporarily transformed SYFY s original films from cult fringe to appointment television Naturally the network followed up with a steady stream of sequels and spin offs including Lavalantula and its sequel 2 Lava 2 Lantula This

collection of essays is the first to devote critical attention to SYFY's original film canon both pre and post *Sharknado*. In addition to unpacking the cultural historical and critical underpinnings of the monsters at the heart of SYFY's classic creature features, the contributors offer a variety of approaches to understanding and interrogating these films within the broader contexts of ecocriticism, monster theory, post-9/11 criticism, and neocolonialism. Providing a further entry point for future scholarship, an appendix details a thorough filmography of SYFY's original films from 1992 to 2022. **The Films of John Schlesinger** Julia Prewitt Brown, 2019-08-24 The city with its manifold distractions and violence, its invitation to intoxication and dream, had long served to represent the experience of modernity in works of art. At the time John Schlesinger made his acclaimed urban documentary *Terminus* in 1961, to be a reader of the city was to be a reader of modern life. And Schlesinger was a discriminating at times relentless reader of the city throughout his career, especially in his three greatest films *Midnight Cowboy*, *Sunday Bloody Sunday*, and *The Day of the Locust*, set in New York, London, and Los Angeles respectively. His character-driven stories evoke the significance of the everyday and insistence on ambiguities of situation and motive, all qualities he was known for pointing to literary influences that reach back to the nineteenth century and earlier. *The Films of John Schlesinger* is not only the first book to fully acknowledge those influences but also the first book to explicate the power of his art to capture the modern urban experiences of becoming an adult in an atmosphere that relentlessly promotes fantasies of success and wealth, of coming to terms with one's national identity in the context of international politics and of attempting to transform the past, both personal and cultural, into a viable present. **Stephen Colbert** Bonnie Szumski, Jill Karson, 2012-03-16 On his television show *The Colbert Report*, which aired on Comedy Central from 2005 to 2014, Colbert played the nation's fool. By good-naturedly mocking the mainstream media, politicians, and others, he made pointed commentary on how those in power attempt to both manipulate and win the trust of the American public. In 2015, Colbert began hosting his own late-night show *The Late Show with Stephen Colbert*, where he interviews guests and continues to cover important political and cultural events. His accolades have been serious and prestigious: Colbert has been named one of *Time* magazine's 100 Most Influential People twice. He has also received Emmy awards, Peabody awards, and an honorary doctorate degree from Knox College. Special attention is paid to explaining the philosophy behind Colbert's comedic personas, reasons for his popularity, and examples of his cultural influence. Aguayo, 2019 *Documentary Resistance: Social Change and Participatory Media* offers a new approach to understanding the networked capacity of documentary media to create public commons, areas crafting connections between unlikely interlocutors. In this process, communities invest in the exchange of documentary moving image discourse around politics and social change. This book advances a new argument suggesting that documentary's capacity for social change is found in its ability to establish forms of collective identification and political agency capable of producing and sustaining activist media cultures. It advances the creation of a conceptual

theoretical and historical space in which documentary and social change can be examined drawing upon research in cinema media and communication studies as well as cultural theory to explore how political ideas move into participatory action This book takes a distinctive approach understanding how struggles for social justice are located reflected and represented on the documentary screen but also in pre and post production processes To address this living history this project includes over sixty unpublished field interviews with documentary filmmakers critics funders activists and distributors
