CUSTOMER GREETING -When greeting a customer, or answering the phone, always, **always** smile and warmly say "hello." Try to find an anchor point to make a conversation connection. If you cannot find an anchor point, it's best not to fake it. Disingenuous conversation or small talk can be a turn off for some customers and it may be best to keep it professional. Use your judgment, but the default is always to warmly ask them "How can I help you today?"

ATTITUDE -Be friendly, professional, and calm at all times – and smile! We want customers to feel good when they are dealing with us. Your attitude is important. It says a lot about the Company and largely determines whether the person in front of us will become a repeat customer.

David Worrall, 2013-09-26 By 1800 London had as many theatre seats for sale as the city's population. This was the start of the capital's rise as a centre for performing arts. Bringing to life a period of extraordinary theatrical vitality, David Worrall re-examines the beginnings of celebrity culture amidst a monopolistic commercial theatrical marketplace. The book presents an innovative transposition of social assemblage theory into performance history. It argues that the cultural meaning of drama changes with every change in the performance location. This theoretical model is applied to a wide range of archival materials including censors' manuscripts, theatre ledger books, performance schedules, unfamiliar play texts and rare printed sources. By examining prompters' records, box office receipts and benefit night takings, the study questions the status of David Garrick, Sarah Siddons and Edmund Kean and recovers the neglected actress Elizabeth Younge and her importance to Edmund Burke.
