Democracy at Work Richard Wolff, 2012-10-02 What and who are we working for A thoughtful assessment on our current society from probably America's most prominent Marxist economist The New York Times Capitalism as a system has spawned deepening economic crisis alongside its bought and paid for political establishment Neither serves the needs of our society Whether it is secure well paid and meaningful jobs or a sustainable relationship with the natural environment that we depend on our society is not delivering the results people need and deserve One key cause for this intolerable state of affairs is the lack of genuine democracy in our economy as well as in our politics The solution requires the institution of genuine economic democracy starting with workers managing their own workplaces as the basis for a genuine political democracy Here Richard D Wolff lays out a hopeful and concrete vision of how to make that possible addressing the many people who have concluded economic inequality and politics as usual can no longer be tolerated and are looking for a concrete program of action Wolff's constructive and innovative ideas suggest new and promising foundations for much more authentic democracy and sustainable and equitable development ideas that can be implemented directly and carried forward A very valuable contribution in troubled times Noam Chomsky leading public intellectual and author of Hope and Prospects

Capitalism Hits the Fan Richard D. Wolff, 2012-09-10 A BREATHTAKINGLY CLEAR ANALYSIS OF TODAY'S ONGOING ECONOMIC CRISIS In this updated edition of Capitalism Hits the Fan Professor Wolff explains why capitalism's global crisis persists why bank bailouts and austerity policies fail and why deepening economic inequality now generates historic social tensions and conflicts and worsens the ongoing crisis This book chronicles one economist's growing alarm and insights as he watched from 2005 onwards the economic crisis build burst and then change the world The argument here differs sharply from most other explanations offered by politicians media commentators and other academics Step by step Wolff shows that deep economic structures the relationship of wages to profits of workers to boards of directors and of debts to income account for the crisis The book's essays engage the long overdue public discussion about capitalism as a system and about the basic structural changes needed not only to fix today's broken economy but to prevent future crises **Occupy the**

Capitalism's Crisis Deepens Richard D. Wolff, 2016-05-30 The leading socialist economist in the country explores the roots of the Great Recession and its immense impact on working people Cornel West While most mainstream commentators view the crisis that provoked the Great Recession as having passed these essays from Richard Wolff paint a far less rosy picture Drawing attention to the extreme downturn in most of capitalism's old centers the unequal growth in its new centers and the resurgence of a global speculative bubble Wolff in his uniquely accessible style makes the case that the crisis should be grasped not as a passing moment but as an evolving stage in capitalism's history Praise for Richard Wolff and Democracy

at Work Probably America's most prominent Marxist economist The New York Times Magazine Richard Wolff's constructive and innovative ideas suggest new and promising foundations for much more authentic democracy and sustainable and equitable development ideas that can be implemented directly and carried forward A very valuable contribution in troubled times Noam Chomsky Wolff offers a rich and much needed corrective to the views of mainstream economists and pundits It would be difficult to come away from this with anything but an acute appreciation of what is needed to get us out of this mess Stanley Aronowitz Bold thoughtful transformative a powerful and challenging vision that takes us beyond both corporate capitalism and state socialism Richard Wolff at his best Gar Alperovitz

Late Neoclassical Economics Yahya M. Madra, 2016-06-10 Several contemporary economic theories revolve around different concepts market failures institutions transaction costs information asymmetries motivational diversity cognitive limitations strategic behaviors and evolutionary stability In recent years many economists have argued that the increase in circulation and mobilization of these new and heterogeneous concepts and their associated methodologies e.g. experiments evolutionary modelling simulations signify the death of neoclassical economics Late Neoclassical Economics The Restoration of Theoretical Humanism in Contemporary Economic Theory draws on the work of Louis Althusser Michel Foucault and the Amherst School to construct the concept of a self transparent and self conscious human subject Homo economicus as the theoretical humanist core of the neoclassical tradition Instead of identifying the emergent heterogeneity as a break from neoclassicism this book offers a careful genealogy of many of the new concepts and approaches including evolutionary game theory experimental economics and behavioural economics and reads their elaboration as part of the restoration of the theoretical humanist core of the tradition Late neoclassical economics is therefore characterized as a collection of diverse approaches which have emerged in response to the drift towards structuralism This book is suitable for those who study political economy history of economic thought and philosophy of economics The arguments put forward in this text will also resonate with anyone who is interested in the fate of the neoclassical tradition and the future of economic theory

Understanding Marxism Richard D. Wolff, 2021-10-14 Why should we pay attention to the great social critics like Marx If you want to understand capitalism in order to make society better then understanding Marx's analysis is fundamental in drawing your attention to capitalist production's core conflict class struggle It is everywhere and it influences everything and everyone in our society Marx is the theoretician who first explained it systematically He was a social critic for whom capitalism signified not the end of human history but the latest phase that badly needed a transition to something better Marxism displays a central crucial focus on the class struggle that both haunts and drives capitalism Nothing could be more relevant and useful here and now to help us understand and cope with the threatening global capitalism of our times Indeed Americans today confront serious questions and evidence that our capitalist system is in trouble and that it clearly serves the 1% far better than the vast mass of the people We offer this introductory book now because of the power and usefulness today of Marx's criticism of the capitalist economic system This

2021 hardcover edition features a new introduction by author Richard D Wolff which strengthens the case for why Marxism is worth understanding It explains and shares our excitement about the ways in which Marxism helps us to critically rethink capitalism today and offers new directions for social development beyond and better than the capitalism we have

Western Marxism and the Soviet Union Marcel van der Linden,2007-06-30 The Russian Question was an absolutely central problem for Marxism in the twentieth century Numerous attempts were made to understand the nature of Soviet society The present book tries to portray the development of these theoretical contributions since 1917 in a coherent comprehensive appraisal It aims to present the development of the Western Marxist critique of the Soviet Union across a rather long period in history from 1917 to the present and in a large region Western Europe and North America Within this demarcation of limits in time and space an effort has been made to ensure completeness by paying attention to all Marxist analyses which in some way significantly deviated from or added to the older theories **Class, Gender, and the**

American Family Farm in the 20th Century Elizabeth Ramey,2014-04-24 Integrating a focus on gender with Marx's surplus based notion of class this book offers a one of a kind analysis of family farms in the United States The analysis shows how gender and class struggles developed during important moments in the history of these family farms shaped the trajectory of U S agricultural development It also generates surprising insights about the family farm we thought we knew as well as the food and agricultural system today Elizabeth A Ramey theorizes the family farm as a complex hybrid of mostly feudal and ancient class structures This class based definition of the family farm yields unique insights into three broad aspects of U S agricultural history First the analysis highlights the crucial yet under recognized role of farm women and children's unpaid labor in subsidizing the family farm Second it allows for a new class based perspective on the roots of the twentieth century miracle of productivity in U S agriculture and finally the book demonstrates how the unique set of contradictions and circumstances facing family farmers during the early twentieth century including class exploitation was connected to concern for their ability to serve the needs of U S industrial capitalist development The argument presented here highlights the significant costs associated with the intensification of exploitation in the transition to industrial agriculture in the U S When viewed through the lens of class the hallowed family farm becomes an example of one of the most exploitative institutions in the U S economy This book is suitable for students who study economic history agricultural studies and labor economics **Violent and Verdant** KangJae Jerry Lee,2025-03-21 Public parks in the U S are one of the most contentious and paradoxical places Many Americans believe public parks are encapsulations of nature promoters of health and embodiments of egalitarianism and democracy providing a wide range of health economic cultural and social benefits to users Yet the historical reality of American public parks has been riddled with greed hypocrisy prejudice and ulterior motives of the rich and powerful Numerous people have been displaced exploited and even killed because of public parks Drawing from multiple disciplines such as sociology history geography urban planning environmental science and

leisure studies Violent and Verdant Systemic Injustice in Public Parks in the U S takes a two pronged approach to provide critical and fresh insights on public parks in the U S It looks back illuminating how parks have been sites of enduring violence and oppression But it also looks forward offering practical strategies and philosophical reimaginations of parks conception development and management **Unending Capitalism** Karl Gerth,2020-05-14 In this provocative account Karl Gerth argues that consumerism rather than communism explains the history of China since 1949 Knowledges Ellen Messer-Davidow,David R. Shumway,David Sylvan,1993 Anyone interested in the relationship between disciplines and today this means everyone should read this collection which is itself a model of interdisciplinarity Stanley Fish Duke University

Criminalization, Representation, Regulation Deborah Brock,Amanda Glasbeek,Carmela Murdocca,2014-09-30 What is a crime and how do we construct it The answers to these questions are complex and entangled in a web of power relations that require us to think differently about processes of criminalization and regulation This book draws on Foucault s concept of governmentality as a lens to analyze and critique how crime is understood reproduced and challenged It explores the dynamic interplay between practices of representation processes of criminalization and the ways that these circulate to both reflect and constitute crime and justice **Contemporary Economic Theory** Andriana Vlachou,2016-07-27 Leading international scholars challenge neoliberalism on its assumptions way of reasoning and empirical evidence In particular they discuss critically from the standpoint of radical perspectives the issues of limiting the state and privatization inflation and unemployment and the possibility of a socialist society They also discuss the current project for the monetary and economic union EMU of Europe considered as an application of neoliberalism They assess and question the internal market the common currency and central bank independence and investigate alternatives to the EMU project and the marketization agenda **State Capitalism and Development in East Asia since 1945** ,2023-08-28 During the second half of the twentieth century the countries of East Asia saw one of the most remarkable transformations in human history from relatively poor societies to global powerhouses of accumulation proletarianisation and mega urbanisation This volume features Marxist scholars from East Asia and Europe who are pioneering a new approach to this transformation using the theory of state capitalism The essays analyse the histories of countries on either side of the Cold War divide within the broader framework of twentieth century global capitalist expansion while at the same time offering a sophisticated critique of Developmental State Theory Contributors are Tobias ten Brink Gareth Dale Jeong Seongjin Michael Haynes Kim Ha young Kim Yong uk Lee Jeong goo and Owen Miller **Missing** Sunaina Marr Maira,2009-05-01 An ethnographic exploration of how young South Asian Muslim immigrants living in the United States experienced and understood national belonging or exclusion in the years immediately following September 11 2001 Radical Political Economy: A Concise Introduction Charles A. When Ads Work John Philip Jones, 2007 The accepted wisdom in advertising is that ad campaigns are good for building brand recognition and good will but not for immediate sales impact When Ads Work argues the opposite that well planned and well executed advertising campaigns can and should have an immediate impact on sales Featuring numerous examples from recent ad campaigns the new edition of this popular book is a model for any successful advertising research program With a device he calls STAS Short Term Advertising Strength a measure of the immediate effect of advertising on sales the author demonstrates that

Borderlands Media David Toohey, 2012-03-15 David E Toohey's Borderlands Media Cinema and Literature as Opposition to the Oppression of Immigrants is an in depth analysis which explores the immigrant experience using a mixture of cinema literary and other artistic media spanning from 1958 onward Toohey begins with Orson Welles's 1958 Touch of Evil which triggered a wave of protest resulting in Chicana/o filmmakers acting out against the racism against immigrant and diaspora communities The study then adds policy documents and social science scholarship to the mix both to clarify and oppose undesirable elements in these forms of thought Through extensive analysis and explication Toohey uncovers a history of power ranging from lingual and visual to more widely recognized class and racial divisions These divisions are analyzed both with an emphasis on how they oppress but also how cinematic political thought can challenge them with special attention to the philosophy of Gilles Deleuze David E Toohey's Borderlands Media is an essential text for scholars and students engaged in questions regarding the effect of media on the oppression of immigrants and diaspora communities

Theology in the Capitalocene Joerg Rieger, 2022-08-30 In times of rising pressures and catastrophes people yearn for alternatives So does the planet Protests are often a start but rebellion is not revolution nor does it always lead to transformation In this incisive and compelling new book Joerg Rieger takes a new look at the things that cause unease and discomfort in our time leading to the growing destruction and death of people and the planet Only when these causes are understood he argues can real alternatives be developed And yet understanding is only a start Solidarity and the willingness to work at the seemingly impossible intersections of everything the triad of gender race and class yes but more beyond must

mark the work of theology Without solidarities that match the complexities of our world the best we can hope for is inclusion in the dominant system but hardly the systemic change and liberation we so desperately need
